OUR MOTTO

“Educating for Righteous Life”

VISION

“To be an Institute of the highest repute and produce good educated citizens who shall strive and cater to the needs of mankind.”

MISSION

“We firmly believe in instilling life- long learning experience that enables a potential knowledge seeker to lead a righteous life by inculcating faith in divinity, infusing love for knowledge, thriving strength of mind, devoted to serve mankind, striving to self-control which are core to one’s holistic transformation.”

“We affirm to create and sustain a learning environment which is value-centered, intellectually challenging, aesthetically inspiring and culturally vibrant.”

Principal's Message

“Great things begin with small actions!”

Warm greetings to all!

One of the common responsibilities of any educational institution is providing quality education and ensuring its quality. Further, quality can be assured only through wellstructured quality assurance mechanisms which can sustain and improve the existing system. IQAC as a support system of the college is invariably and vigilantly striving towards redefining, sustaining and enhancing the quality benchmarks of the academic and non-academic affairs on the campus. Thereby, it also calibrates the holistic excellence of institutional governance.

It is indeed promising to see that the newsletter crafted by the IQAC of the college, a torch bearer in the field of higher education, is finding the light of the day. ‘Kamadhenu’ our newsletter is an endeavor to present the quality initiatives that did take place during the season. Further, it provides a sense of satisfaction of having accomplished the academic and administrative endeavors we had set for ourselves and a spur to do more for the next season. Moreover, it will prove to be the ready reckoner for all the stakeholders of the institute and also enable them to cherish their own deeds and accomplishments.

Although IQAC strives to synergize various quality initiatives, we seek continued active participation of all stakeholders in this regard for the betterment and sustained progress of the Institute. Thus, help us in fulfilling our mission to provide quality higher education to our students and educate them for righteous life.

With Best Wishes,

Dr. K. V. Malini
Principal & Chairman

IQAC Coordinators Message

“Start with Quality, lead with assurance, sustain with consistency and outcome will be excellence!”

Season's Greetings to our Stakeholders!

Our sense of contentment and joy know no bounds as we ink our views in this Newsletter. Therefore, it is with great pleasure we place before you our IQAC Newsletter titled “Kamadhenu” which is a determined effort at disseminating information to all our stakeholders who evince interest in the Institute's growth. This newsletter highlights the spectrum of activities and accomplishments of the college in different spheres during the odd semester.

Our annual theme for the academic year 2019-20 “Changing with Times” has indeed enabled us to pace with the changing needs of the times and ushering quality culture in the system. We are of the hope that the initiatives of IQAC will further strengthen the system to work towards the realization of such desired goals.

Quality is everyone's responsibility and a key factor in fostering Quest for Excellence. Therefore, together we continue to leap forward in the journey of quality to make excellence a habit. We acknowledge and appreciate the Documentation team for their persistent efforts and hope to see it grow efficiently with a high level of professionalism.

In his speech he said “We live in a world in permanent transformation. A transformation that has shown to be of value to society as a whole (in terms of increased life expectancy, poverty reduction or eradication of illiteracy, among other benefits).

This transformation has been accelerated by digitalization. A kind of virtual space on a global scale that facilitates the removal of numerous physical barriers to growth. Changes in consumer habits, hyper connectivity and greater access to information, the exponential increase in IT capabilities (coupled with a reduction in costs), the vast possibilities offered by the use of artificial intelligence, etc., are good examples of a transformation that has fully impacted the scale and nature of business. Companies are looking for innovative solutions, built in increasingly collaborative environments, that take advantage of technological disruption to make their processes efficient and improve their customers' experience, while also making the available information more valuable.

Creating value through digital transformation is a challenge today, but what really matters is that this value creation translates into sustainable growth, that is, growth that does not compromise future growth and even facilitates it. Some of the key characteristics of organizations that have managed to grow sustainably are: talent and continuous learning, innovation, diversification, customer focus, and organizational flexibility. Service-minded attitude, humility, generosity and solidarity, teamwork, integrity and critical thinking, “meritocracy”, passion for a job well done and an entrepreneurial spirit, perseverance in the pursuit of objectives. In short, a constant search for excellence, which in turn requires talent, effort and training.”

Mrs. Dejamma A., Head, Department of Commerce in her introductory speech said “the Earth provides enough to meet everyone’s needs. India’s great moral leader Mohandas Gandhi famously said that there is enough on Earth for everybody’s need, but not enough for everybody’s greed. Quality Policy

"Committed to Innovate, Inspire and Impact in creating educationally empowered, culturally vibrant and globally competent humans who are able to lead a righteous life."

Value Framework

The value promotion policy serves five-fold purposes :

1. Contributing to National Development
2. Fostering Global Competencies and Human Excellence among Students
3. Inculcating Value System among Students
4. Promoting the Use of Technology for a Green Environment
5. Eliciting Quest for Excellence as a permanent commitment

IQAC strives to attain the following objectives :

1. To bring in a heightened level of clarity and focus in institutional functioning towards quality enhancement and facilitate internalization of the quality culture.
2. To promote the enhancement and integration among the various activities of the institution and institutionalize many best practices.
3. To provide a sound basis for decision making to improve institutional functioning.
4. To act as a change agent in the institution.
5. To foster better internal communication.

Theme of the Year

"Changing with Times"

A desire can change nothing, a decision can change something but a willful determination can change everything. Times will change for the better when you change; because nothing endures except change. Progress is impossible without change and those who cannot change and adapt their minds cannot change anything. It is with great excitement and anticipation we have chosen "Changing with Times" as our annual theme of the IQAC for the academic year 2019-20. We wish and hope to strive that all our fore coming endeavors during the year inculcate the essence of the proposed theme and reflect the same.
