Educating for Righteous Life

विद्या काम दुघा

Prayer for Knowledge and Wisdom

Oh! Goddess of knowledge and wisdom!
Many born with me have no source
To pursue education with resource
Which I am indeed blessed and grateful to my parents
Who sacrifice all their money and comforts
To make me well read with quality
So that I may serve them and society!

Help me focus on my goal
In all sincerity with my heart and soul!
Knowledge is precious wisdom more
That help me locate what is core
In life with the able guidance of my Master
Whom I revere as your Messenger!

Grant me the serenity to accept the
Things I cannot change;
Courage to change the things I can, and
Wisdom to know the difference.
Give me the strength to make right choices and
Guide me in everything that I do.

Help me keep learning every day of my life
Enlighten me to be committed to my endeavors;
Encourage me to develop my talents
Grant me the grace to put my knowledge to use;
Make me worthy of more than mere survival
Help me grow with humility in Godly character!

Where the mind is without fear
and the head is held high;
Where knowledge is free;
Where the world has not been broken up into
fragments by narrow domestic walls;
Where words come out from the depth of truth;
Where tireless striving stretches
its arms towards perfection;
Where the clear stream of reason has not lost its way
into the dreary desert sand of the dead habit;
Where the mind is led forward by thee
into ever-widening thought and action;
Into that heaven of freedom, my Father,
let my country awake!

Saga of Our Founder

"A great Founder never leaves memories; rather leaves indelible footprints on our minds"

Sri Ammembal Subba Rao Pai
(1852 - 1909)

An institution grows in the shadow of the founder. He was a man, take him all in all, I shall not look upon his like again. It was on November 19, 1852 a legend named Sri Ammembal Subba Rao Pai was born at Mulky near Mangaluru. This star went ahead and created a universe of its own which emanates radiance in the form of talented individuals and shall continue to emanate this radiance for time immemorial.

As a boy, Subba Rao was known to be mischievous, mediocre in studies, fond of play, a ringleader among the boys. But he was deeply respectful towards his elders and his esteem for his father amounted to reverence. He had his early schooling at Government High School, Mangaluru. It was the early demise of his mother that is believed to have profoundly influenced him to take his studies seriously. He stood high in matriculation and Fellow of Arts (F.A.) examinations. After passing his F.A. examination with second Rank, his father sent him to Chennai to take up higher studies. Following his graduation from the Presidency College, he joined the Madras Law College where he topped the list of successful candidates of B.L. exam. In 1876, following the untimely demise of his father, he returned to Mangalore where he endeavored to set-up his own and successfully practiced law. It is said that he often attempted to persuade amicable out-of-court settlements for his clients.

Sri Subba Rao was also an admirer of Nationalist leaders of India. He held Sri Aurobinda Ghosh in great admiration. Besides this, he was a patriot at heart, a humanist by action, a lawyer and a banker by profession, an educationist and a social reformer by temperament, and a foremost among the pre-independence luminaries who shaped the future of Dakshina Kannada District and of the GSB Community. After ten years of his practice in Mangalore, he went back to Madras in 1887 to resume his practice there. It is there that one day the four young men teachers, who approached him with a proposal to start a school in Mangalore. His deep concern for social uplift gave birth in 1891 the Canara High School, Mangaluru, the century old precursor to the conglomeration of Canara Group of Institutions today having fifteen institutions, an indeed posthumous history. Shortly thereafter, in 1894, with a view to encouraging the education of girls, he started the Canara Girls High School, indeed a revolutionary step considering the prevalent values and attitude of the people towards women's education at that time.

Further, with the disastrous crash of the Arbuthnot Company at the beginning of the 20th century, his concern about the high interest rates being charged by money lenders to the poor people of South Canara and his spirit of enterprise, gave birth to yet another national institution, the Canara Bank in 1906, formerly called as The Canara Hindu Permanent Fund Ltd. with a view to enabling the community to mobilize its own resources for self-help.

Sri Subba Rao's versatility was not confined to the legal profession alone. Along with his professional work in the mornings, the evenings were devoted to social work. He always remained silent about his own acts of kindness. He kept himself fully informed about the fast changing world. His zeal and love for mankind touched life at all points. He was deeply saddened at the lethargy of the people towards education and realized that there was no future for the people without widespread general and higher education in professional and technical courses. Because of his enormous efforts, our young men were seen holding high offices both in the Engineering, Medical and other professional services at then.

The seeds sown by our founder a century ago have grown into huge tree providing shelter to the society in terms of education, employment opportunities and financial support; thus contributing to the welfare, prosperity and progress of the society. A visionary far ahead of His times and life, Sri Ammembal Subba Rao departed to the heavenly abode on July 25, 1909. Though he shrugged off his mortal remains, he became a living soul and his philanthropic zeal continues to touch the lives of innumerable folks even today because the life of such a great soul is always placed in memory of the living. Sri Ammembal Subba Rao Pai forever lives in the realm of people's grateful memory and hearts, through the institutions he founded which has emerged as powerhouse of education and one among the leading nationalized bank.

Sri Subba Rao always believed in creating an institution focused on social responsibilities. Focus on your goals and returns will follow was his dictum. As we continue to envisage the central mission and core philosophy of our institution, we draw enormous inspiration from our legendary Founder who continues to be the beacon of light for all our accomplishments and he ever remains the lodestar and spur for all our endeavors.

Genesis

History and Origin

June 30, 1891, is a golden letter day in the history of Canara, because it was on this auspicious day that the seed of “CANARA”, an esteemed Educational Institution was sown by that great legendary soul, Sri Ammembal Subba Rao Pai who along with four visionaries viz., Sri U. Srinivas Rao, B. Padmanabha Baliga, B. Vaman Baliga & Arkal Vasudev Rao accomplished this noble task. With his deep concern towards social upliftment and also to encourage the education of girls, he started the Canara Girls High School, which was indeed a revolutionary step considering the prevalent values and attitude of the people towards girls' education at that time.

The decision to venture Canara College was in response to the growing demand for collegiate education at then from the old students and well-wishers of the Canara High School Association, and a general need to have an institution of higher learning which could impart quality education at affordable cost in Mangaluru. The encouraging support of the philanthropic public of Mangaluru soon resulted in the establishment of Canara College. The foundation stone of the College building was laid on July 12, 1972 by Dr. A. P. Pai, Senior Life Member of the College Committee. The College is grateful to its past President, the Late U. Gopalkrishna Nayak, who was instrumental in the establishing of the new buildings for the three High Schools, Junior College and the present First Grade College as well. The College building was declared open on July 04, 1973 by Mr. Holck Larsen, the then Chairman and Managing Director of Larsen & Toubro Ltd. Ever since we opened the portals of this temple of learning; it has developed as one of the prestigious educational Institutions in the coastal educational hub of Mangaluru city.

Canara has had many milestones to celebrate and also opportunities to introspect on the past. Canara College, with its illustrious history of nearly five decades, has created a niche for itself as a pioneer in imparting quality education at affordable cost. Today, Canara College has been recognized and identified as one of the reputed institutions in the combined districts of Dakshina Kannada and Udupi. Besides catering to the needs of linguistic minority community, and diversity of students from neighboring and other states

coming from varied backgrounds, the institute has been witnessing an increasing influx of students taking admission in Canara, this testifying its growing popularity.

The year 2023 earmarks the Golden Jubilee of the Institute's illustrious existence. Progressive outcome of the accreditation, University Ranks, accolades and laurels brought by our students stand testimony to our incredibly splendid journey, and also provide a motivation for us to further elevate our bar of excellence; thereby strive continuously in the journey of quality.

Therefore, the mammoth growth of institute has not happened because of sheer chance. This will certainly entail your development by making you an educationally empowered, culturally vibrant, globally competent, and socially responsible individual.

The Crest

To place before you the aims of your education in this temple of learning and the heights to which you must aspire and grow, you have the crest of the Institution.

The vision of our Pioneers was to provide complete education which would integrate the ancient Indian ethos with modern, scientific and technological forefront. The Vedic Mantra "Vidya Kamadugha" meaning "Vidya is a Kamadhenu", which gives you whatever you desire was a crystallization of this ideal. This indeed led to the embracing of the recumbent Kamadhenu as pictured in the Puranas as the crest of the Institution. The Kamadhenu rests under the Kalpataru with all the signia of royalty like the crown, the elephant, and the umbrella as depicted in the tree. Its four legs symbolize the four Vedas, and it treats the four Purusharthas. Also seen in the crest is the citation from the Upanishad as uttered by the Guru to the departing shishya "Satyam Vada Dharmam Chara", meaning "Speak the truth, be righteous". This instruction from the Guru provides a code of conduct that cannot be improved upon even today.

Motto

“Educating for Righteous Life”

Where there is education there is progress and upliftment. It is not necessary to take up severe penance in order to attain knowledge, but is enough if one performs his duties with utmost righteousness and dedication to God. With a motto of “Educating for Righteous Life”, every student who passes through the portals of this temple of learning must aspire to be the life-long learners with a blend of moral conduct so that it can enable them to win highest knowledge and thus lead a righteous life. Go forth, live according to this because nothing is supreme than the 'Law of Righteousness'. We hope your life measure up to the expectation of our crest and motto.

Vision

“To be an institute of the highest repute and produce good educated citizens who shall strive and cater to the needs of mankind.”

Mission

“We firmly believe in instilling life-long learning experience that enables a potential knowledge seeker to lead a righteous life by inculcating faith in divinity, infusing love for knowledge, thriving strength of mind, devoted to serve mankind, striving to self-control which are core to one's holistic transformation.”

“We affirm to create and sustain a learning environment which is value-centered, intellectually challenging, aesthetically inspiring and culturally vibrant.”

Core Values

The institution unceasingly strives upon instilling the following five (Pancha Sheela) core values in every canarite viz.,

1. Shraddha : Faith in Divinity
2. Jijnasa : Love for Knowledge
3. Shakti : Strength of Mind
4. Samyam : Self-Control
5. Seva Nishta : Service to Mankind

1. Shraddha - Faith in Divinity

श्रद्धावान् लभते ज्ञानं तत्परः संयतेन्द्रियः ।
ज्ञानं लब्ध्वा परां शान्तिमचिरेणाधिगच्छति ॥

Meaning : A man with full of faith, who is devoted to it, and who has subdued the senses, obtains knowledge; and having obtained knowledge, he attains the supreme peace.

Any act that is performed with all sincerity and absolute faith can certainly make all things possible. Shraddha is indispensable, because without it, knowledge will forever be beyond ones grasp. Therefore, Shraddha is like a stepping stone; with the help of a teacher, and belief in God, one can acquire knowledge.

2. Jijnasa - Love for Knowledge

नास्ति विद्यासमो बन्धुः नास्ति विद्यासमः सुहृत् ।

नास्ति विद्यासमं वित्तम् नास्ति विद्यासमं सुखम् ॥

Meaning : There is no friend, no companion, no wealth or no bliss as great as vidya (Knowledge).

Jijnasa is the desire, curiosity or inquisitiveness to know. When the jijnasa or the desire to know the true nature of objects intensifies, then, one reaches the threshold of jnana or knowledge about those objects. The desire to know is the very base of knowledge which is an excited state that leads to further understanding which is the beginning point of deeper knowledge. Hence, never stop learning, because life never stops teaching.

3. Shakthi – Strength of Mind

शक्तिः दुर्दम्येच्छाशक्त्याः आगच्छति ।

Meaning : Strength comes from an indomitable will.

Education is the creation of a sound mind in a sound body. It elevates the mind to meditate, realize the truth, goodness and beauty. Besides, a determined mind is an undefeatable force. Therefore, the primary objective of academic, co-curricular and extra-curricular activities is to not just to inculcate enthusiasm among learners to go beyond the curriculum to develop innovative ideas, team building and leadership; but also prepare them, physically and mentally, to face the inevitable challenges of life with conviction and grit.

4. Samyam - Self-control

इन्द्रियजयस्य मुलं विनयः ।

Meaning : The root to conquer your senses, is to be disciplined.

Self-reverence, self-knowledge, self-control - these three alone lead lives to sovereign power. Self-control is the control of the mind and its desires, urges, emotions and delusions. It is controlling the outgoing tendencies of the mind and the senses, and bringing them back to our self within. Self-control is one mark of a mature person that applies to control of language, mind, appetites of the body, physical conduct of others. Hence, self-restraint is the key to eternal happiness.

5. Seva Nishta - Service to Mankind

परोपकारः पुण्याय पापाय परपीडनम् ।

Meaning : Doing good to others conduces to merit, and doing harm to others leads to sin.

It is well to give when asked, but it is better to give unasked. The best way to find oneself is to lose in the service of others. To serve humanity is to serve God and service before self, bring out the importance of social service. Such acts put sunshine into a dark life. Involving ourselves in service elevates our minds, hearts and spirit. It makes our lives richer and fuller. It gives us profound spiritual satisfaction and makes us truly happy. There is no greater happiness than the happiness that comes to us through the happiness of others.

The seeds sown of compassion and empathy sown always yield the sweetest fruits. Thus, the acts of social service (Seva) done with faith and devotion (Shraddha), nurturing love for knowledge (Jijnasa) having strength of mind (Shakti) and self-control (Samyam), undeniably, propitiate divine grace.

**Mangalore University Regulations Governing the
Choice Based Credit System Semester Scheme
with Multiple Entry and Exit Options in the
Undergraduate and Post-graduate Degree Programmes in the
Faculties of Arts, Science and Commerce**

Framed under Section 44 (1) (c) of the KSU Act 2000)

[Notification vide MU/ACC/CR34/NEP/2021-22/A2 dated 03/11/2021]

Preamble :

The New Education Policy (2019) initiated and developed by the Ministry of Human Resource Development (HRD), Govt. of India, has been approved by the Central cabinet on July 29, 2020. The National Education Policy (NEP) has brought several reforms in Indian education which includes broad based multi-disciplinary Undergraduate Education with 21st Century skills while developing specialized knowledge with disciplinary rigor. It is to bring equity, efficiency and academic excellence in National Higher Education System. The important ones include innovation and improvement in course-curricula, introduction of paradigm shift in learning and teaching pedagogy, evaluation and education system. The NEP has recommended a Multi-disciplinary Undergraduate Programme with multiple exit and entry options with Certificate / Diploma / Degrees at each of the exits.

Further, the Karnataka State Higher Education Council has proposed a model curriculum framework and an implementation plan for the State of Karnataka. It is to suggest and facilitate the implementation of schemes and programmes, which improve not only the level of academic excellence but also improve the academic and research environment in the state. The proposed curriculum framework endeavors to empower the students and help them in their pursuit for achieving overall excellence.

The proposed Four-year Multi-disciplinary Undergraduate programme is a fundamental transformation of the current undergraduate education which replaces the conventional undergraduate programmes of universities in the State. Outcome Based Education (OBE) practices are to be used to design the curriculum. It is proposed to develop Graduate Attributes at appropriate level which will act as common denominator for curriculum across universities.

Curriculum shall focus on critical thinking and problem solving. Conscious efforts to develop cognitive and non-cognitive problem-solving skills among the learners shall be part of the curriculum. Use of Bloom's Taxonomy in designing curriculum to move from lower order thinking skills to higher order thinking skills is a desired option. The programmes designed shall empower graduates as expert problem solvers using their disciplinary knowledge and collaborating in multi-disciplinary teams.

Hence, Mangalore University thought it fit to implement the multidisciplinary and holistic education in all the under-graduate programmes and the consequential post-graduate programmes, with multiple entry and exit options with multiple certificate/diploma/degrees in the Faculties of Arts, Science, Commerce and Management to replace the present undergraduate degree programmes effective from the academic year 2021-22. Hence these Regulations.

1. Title and Commencement :

- 1.1. These regulations shall be called "The Regulations Governing the Choice Based Credit System Semester Scheme with Multiple Entry and Exit Options in the Undergraduate and Postgraduate Degree Programmes in the Faculties of Arts, Science and Commerce".
- 1.2. These regulations shall come into force from the Academic Year 2021-22.

2. Salient Features of the Four Years Multidisciplinary Undergraduate Programmes with Multiple Entry and Exit Options

- 2.1. The programme shall be structured in a semester mode with multiple exit options with Certificate, Diploma and Basic Bachelor Degree at the completion of first, second and third years, respectively. The candidate who completes the four years Undergraduate Programme, either in one stretch or through multiple exits and re-entries would get a Bachelor's degree with Honours.
- 2.2. The four years undergraduate Honours degree holders with research component and a suitable grade are eligible to enter the 'Doctoral (Ph.D.) Programme' in a relevant discipline or to enter 'Two Semester Master's Degree programme with project work'.
- 2.3. Candidates who wish to enter the master's / doctoral programme in a discipline other than the major discipline studied at the undergraduate programmes, have to take additional courses in the new discipline to meet the requirement or to make up the gap between the requirement and the courses already studied.
- 2.4. There may be parallel five year integrated Master's degree programmes with exit options at the completion of third and fourth years, with the undergraduate degree and undergraduate degree with honours in a discipline, respectively.
- 2.5. There may also be an integrated doctoral programme with exit option at the end of the first year with the Master's degree.
- 2.6. The students who exit with Certificate, Diploma and Basic Bachelor Degree shall be eligible to re-enter the programme at the exit level to complete the programme or to complete the next level.

- 2.7. The Multi-disciplinary Undergraduate Programme may help in the improvement of all the educational outcomes, with a flexible and imaginative curricular approach. The programme provides for both breadth and depth in diverse areas of knowledge. A range of courses are offered with rigorous exposure to multiple disciplines and areas, while specializing in one or two areas. The programme fulfills knowledge, vocational, professional and skill requirements along-side humanities and arts, social, physical and life sciences, mathematics, sports etc.
- 2.8. The curriculum combines conceptual knowledge with practical engagement and understanding that has relevant real world application through practical laboratory work, field work, internships, workshops and research projects.
- 2.9. A few courses are common to all students which contribute to the breadth of study and two areas of specialization in disciplinary areas provides for depth of study.
- 2.10. The areas of specialization which the students are required to choose are either two disciplines / subjects or a discipline called 'major' (e.g. History or Economics or Physics or Mathematics) and an area of additional discipline called 'minor' (e.g. Music or Sports or Geography). Students gain deep disciplinary knowledge through theory and practical experiences in their area of specialization (major). They gain a reasonable understanding of the area of additional study (minor) that they choose. Students can choose subject combinations across 'streams' (e.g. a student can choose a 'major' in physics and combine it with a 'minor' in history or Music or Sports). One of the disciplines can also be a vocational subject or Teacher Education.
- 2.11. The students may study two disciplines at the same level or breadth up to the sixth semester and choose one of them for study in the fourth year to obtain the Honours degree in that discipline. A student who wishes to get dual honours degrees may repeat the fourth year of the program in the second discipline.
- 2.12. The students may choose one discipline and vocational subject or Teacher Education for their study in the undergraduate programme. This will enable them to get an Honours degree either in the discipline or in the vocational subject / Teacher Education or both, in the discipline and in the vocational subject / Teacher Education.
- 2.13. Skills shall be explicitly integrated, highly visible, taught in context, and have explicit assessment. The skills shall include abilities in language

and communication, working in diverse teams, critical thinking, problem solving, data analysis and life skills.

- 2.14. Students shall be given options to choose courses from a basket of courses which the institution is offering. There shall be no rigidity of combination of subjects.

The Four-Year Choice Based Credit System Semester Scheme makes the product of a University at par with the global practices in terms of academic standards and evaluation strategies. In the emerging scenario of Internationalization of Indian Higher Education, it is imperative that the Universities in India should follow this system so that the mobility of their products both within and across the geographical jurisdiction becomes possible.

Salient Features of Credit Based Semester Scheme (CBSS) :

Each course shall carry certain number of credits. Credits normally represent the weight age of a course and are a function of teaching, learning and evaluation strategies such as the number of contact hours, the course content, teaching methodology, learning expectations, maximum marks etc. In the proposed programmes, generally one hour of instructions per week in a semester is assigned one credit. In terms of evaluation, one credit is generally equivalent to 25 marks in a semester. Thus a 3 or 4 credits course will be assessed for 100 marks, 2 credits courses are assessed for 50 marks and one credit course will be assessed for 25 marks. What matters for the calculation of Semester Grade Point Average (SGPA) or the Cumulative Grade Point Average (CGPA) is the percentage of marks secured in a course and the credits assigned to that course.

On this basis, generally, a three-year six-semester undergraduate programme will have around 140 credits, and a four-year eight-semester honors degree programme will have around 180 credits and a five-year ten-semester master's degree programme will have 220 credits.

The general features of the Credit Based Semester Scheme are as follows :

- a. The relative importance of subjects of study is quantified in terms of credits.
- b. The subjects of study include core, elective, ability/skill enhancement courses
- c. The programme permits horizontal mobility in course selections.
- d. The students shall take part in co-curricular and extension activities.
- e. The declaration of result is based on Semester Grade Point Average (SGPA) or Cumulative Grade Point Average (CGPA) earned.

3. Programmes :

- 3.1. Faculty of Arts
- 3.2. Faculty of Science
- 3.3. Faculty of Commerce

Bachelor's Degree / Bachelor's Degree with Honors / Integrated Master's Degree / Master's Degree in respective Faculty / Streams and any other programme in respective Faculty introduced by Mangalore University from time-to-time.

4. Duration of Programmes, Credits requirements and Options :

- 4.1. The undergraduate degree should be of either a three-or four-year duration, with multiple entry and exit options within this period, The four years multi-disciplinary Bachelor's programme is the preferred option as it allows the opportunity to experience the full range of holistic and multi-disciplinary education with a focus on major and minor subjects as per the student's preference. The four-year programme may also lead to a degree with Research, if the student completes a rigorous research project in the major area(s) of study.
- 4.2. The undergraduate programmes shall extend over four academic years (Eight Semesters) with multiple entry and exit options. The students can exit after the completion of one academic year (two semesters) with the Certificate in a discipline or a field; Diploma after the study of two academic years (four Semesters) and Regular Bachelor Degree after the completion of Three academic years (six Semesters). The successful completion of Four Years undergraduate Programme would lead to Bachelor Degrees with Honors in a discipline/subject. Each semester shall consist of at least 16 weeks of study with a minimum of 90 working days (excluding the time spent for the conduct of end semester examinations).
- 4.3. The candidates shall complete the courses equivalent to minimum credit requirements

Exit with	Min. Credits Requirement*	NSQF Level
Certificate at the Successful Completion of First Year (Two Semesters) of Four Years Multidisciplinary U.G. Degree Programme	48	5
A Diploma at the Successful Completion of the Second Year (Four Semesters) of Four Years Multidisciplinary U.G. Degree Programme	96	6

Basic Bachelor Degree at the Successful Completion of the Third Year (Six Semesters) of Four Years Multidisciplinary Undergraduate Degree Programme	140	7

- 4.4. The students shall be required to earn at least fifty per cent of the credits from the Higher Education Institution (HEI) awarding the degree or diploma or certificate: Provided further that, the student shall be required to earn the required number of credits in the core subject area necessary for the award of the degree or Diploma or Certificate, as specified by the degree awarding HEI, in which the student is enrolled.
- 4.5. The students shall be required to earn at least fifty per cent of the credits from the Higher Education Institution (HEI) awarding the degree or diploma or certificate : Provided further that, the student shall be required to earn the required number of credits in the core subject area necessary for the award of the degree or Diploma or Certificate, as specified by the degree awarding HEI, in which the student is enrolled.
- 4.6. A candidate who successfully completes a three year Bachelor's degree, with a minimum CGPA of 7.5 and wishes to pursue the fourth year of the undergraduate programme by research, shall be allowed to continue the programme with Research to obtain the Bachelor's degree with honors by research, while other candidates may continue their studies in the fourth year of the undergraduate programme with or without a research project along with other courses as prescribed for the programme to complete their Bachelor's degree with honors.
- 4.7. Candidates who successfully complete their four years Bachelor's degree with honors, either by research or course work with research component and a suitable grade are eligible to enter the 'Doctoral (Ph.D.) Programme' in a relevant discipline or to enter the "Two Semester Master's Degree programme".
- 4.8. Candidates who wish to complete the undergraduate and the postgraduate programmes faster, may do so by completing the different courses equal to the required number of credits and fulfilling all other requirements in N-1 semesters (where N is the number of semesters of an

undergraduate / postgraduate programme). This facility is available for the programmes with a minimum duration of three years or six semesters. For example, a candidate may obtain his / her Six Semesters Bachelor's degree, after successfully completing five semesters of the programme, provided he/she has completed courses equal to the required/ prescribed number of credits and fulfills all other requirements for awarding the degree. Likewise, a candidate may obtain his/her Eight Semesters Bachelor's degree with honors, after successfully completing seven semesters of the programme, provided he / she has completed courses equal to the required number of credits and fulfills all other requirements for awarding the Bachelor's degree with honours.

- 4.9. Similarly, candidates may complete both the undergraduate and the postgraduate programmes in slow track. They may pursue the three years or six semester programmes in 4 to 5 years (8 to 10 semesters) and four years or eight semester programmes in 5 to 6 years (10 to 12 semesters). As a result, the higher education institutions have to admit candidates not only for programmes, but also for subjects or courses. But the new admissions are generally made in the beginning of an academic year or the beginning of odd semesters.

4.10 National Skills Qualifications Framework (NSQF) :

- 4.10.1. The National Skills Qualifications Framework (NSQF) is a competency-based framework that organizes qualifications according to a series of knowledge, skills and aptitude. The NSQF levels, graded from one to ten, are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning.
- 4.10.2. National Occupational Standards (NOS) are statements of the skills, knowledge and understanding needed for effective performance in a job role and are expressed as outcomes of competent performance. They list down what an individual performing that task should know and also are able to do. These standards can form the benchmarks for various education and training programmes to match with the job requirements. Just as each job role may require the performance of a number of tasks, the combination of NOSs corresponding to these tasks form the Qualification Pack (QP) for that job role.
- 4.10.3. The NOSs and QPs for each job role corresponding to each level of the NSQF are being formulated by the respective Sector Skill Councils (SSCs) set up by National Skill Development Corporation (NSDC) with

industry leadership. The curriculum which is based on NOSs and QPs would thus automatically comply with NSQF.

4.10.4. General Education has to be synchronized / aligned with skill and Vocational Education as per National Skills Qualifications Framework. The level descriptors are given below as described in UGC Guidelines on National Skills Qualifications Framework. The curriculum should be designed in a manner that at the end of year-1, year-2 and year-3, students are able to meet below mentioned level descriptors for level 5, 6 and 7 of NSQF, respectively.

4.10.5. The progressive curriculum proposed shall position knowledge and skills required on the continuum of novice problem solvers (at entry level of the programme) to expert problem solvers (by the time of graduation) :

At the end of First Year		Ability to solve well defined problems			
At the end Second Year		Ability to solve broadly defined problems			
At the end of Third Year		Ability to solve complex problems that are ill-structured requiring multi-disciplinary skills to solve them			
During the end of Fourth Year		Experience of workplace problem solving in the form of Internship or Research Experience preparing for Higher Education or Entrepreneurship Experience			
Levels	Process required	Professional Knowledge	Professional Skill	Core Skill	Responsibility
5	Job that requires well developed skill, with clear choice of procedures in familiar context	Knowledge of facts, principles, processes and general concepts in a field of work or study	A range of cognitive and practical skills required to accomplish tasks and solve problems by selecting and applying basic methods, tools materials and information	Desired mathematical skill, understanding of social, political and some skill of collecting and organizing information, Communication	Responsibility for own work and learning and some responsibility for other's works and learning

Full responsibility for output of group and development

4.10.6. The Integrated Master's Degree Programmes shall extend over Five academic years (Ten Semesters) with exit options with Bachelor Degree after successful completion of Three academic years (Six Semesters) of study and Bachelor Degree with Honours in a discipline / subject at the end of Four academic years (Eight Semesters). - 5.1. The Academic Bank of Credits (ABC), a national-level facility will promote the flexibility of the curriculum framework and interdisciplinary / multi-disciplinary academic mobility of students across the Higher Education Institutions (HEIs) in the country with appropriate "credit transfer" mechanism. It is a mechanism to facilitate the students to choose their own learning path to attain a Degree / Diploma / Certificate, working on the principle of multiple entry and exit as well as anytime, anywhere, and any level of learning. ABC will enable the integration of multiple disciplines of higher learning leading to the desired learning outcomes including increased creativity, innovation, higher order thinking skills and critical analysis.
- 5.2. ABC will provide significant autonomy to the students by providing an extensive choice of courses for a programme of study, flexibility in curriculum, novel and engaging course options across a number of higher education disciplines/ institutions.
- 5.3. The ABC allows for credit redemption through the process of commuting the accrued credits in the Academic Bank Account maintained in the ABC for the purpose of fulfilling the credits requirements for the award of certificate / diploma / degree by the authorized HEIs.
- 5.4. The validity of credits earned will be for a maximum period of seven years or as specified by the Academic Bank of Credits (ABC). 		<p>A Major discipline is the field in which a student focuses during the course of his / her degree. A course in a discipline, which a candidate should compulsorily study as a core requirement is termed as a Core course. The core courses aim to cover the basics that a student is expected to imbibe in that particular discipline. They provide fundamental knowledge and expertise to produce competent, creative graduates with a strong scientific, technical and academic acumen. These courses are to be taught uniformly across all universities with minimum deviation. The purpose of fixing core courses is to ensure that all the institutions follow a minimum common curriculum so that each institution adheres to a common minimum standard which makes credit transfer and mobility of students easier.</p>
	Major Discipline Elective Courses	<p>Elective Course is a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline / subject of study or which provides an extended scope or enables an exposure to some other discipline / subject / domain or which nurtures the candidate's proficiency / skill. 11. Pedagogy across all Programmes :

Effective learning requires appropriate curriculum, an apt pedagogy, continuous formative assessment and adequate student support. The intention is to contextualize curriculum through meaningful pedagogical practices, which determine learning experiences directly influencing learning outcomes. Active, cooperative, collaborative and experiential learning pedagogies are some of the examples. Use of technology in creating learning environment that connects learners with content, peers and instructors all through the learning process respecting the pace of learners is need of the hour. Classroom processes must encourage rigorous thinking, reading and writing, debate, discussion, peer learning, self-learning, Problem Based Learning, application of theory, blended mode of learning, etc. Thus, a faculty will have the freedom to

identify and use the pedagogical approach that is best suited to a particular course and student.

12. Blended Mode (BL) as a new mode of teaching-learning :

UGC suggests implementing Blended Mode (BL) as a new mode of teaching-learning in higher education. BL is not a mere mix of online and face-to-face mode, but it refers to a well-planned combination of meaningful activities in both the modes. The blend demands consideration of several factors, mainly focusing on learning outcomes and the learner-centered instructional environment.

12.1. Summative Evaluation Strategies :

Open Book examination, Group examinations even for conventional theory papers, Spoken / Speaking examinations, On-demand examinations.

12.2. Formative Evaluation Strategies :

Tools such as e-Portfolio, creative products, classrooms / online quizzes, can be used eventually for formative assessment.

12.3. Use of AI tools for Proctoring as well as assessments:

During the COVID time, many exams were forced to be conducted in an online mode. These were supported by variety of tools which came into being in recent times and were based on proctoring through Artificial Intelligence tools.

13. Assessment and Evaluation :

Assessment is an integral part of the teaching learning process. A multi disciplinary program requires a multidimensional assessment to measure the effectiveness of the diverse courses. The assessment process acts as an indicator to both faculty and students to improve continuously.

13.1. A range of tools and processes for assessment should be used (e.g. open book tests, portfolios, case study / assignments, seminars / presentations, field work, projects, dissertations, peer and self-assessment) in addition to the standard paper-pencil test. The teachers concerned shall conduct test / seminar / case study, etc. The students should be informed about the modalities well in advance.

13.2. Continuous / Internal assessment marks shall be shown separately. A candidate who has failed or wants to improve the result, shall retain the IA marks, provided he / she fulfills the minimum requirements.

13.3. Continuous Formative Evaluation / Internal Assessment :

Total marks for each course shall be based on continuous assessments

and semester end examinations. As per the decision taken at the Karnataka State Higher Education Council, it is necessary to have uniform pattern of 40 : 60 for IA and Semester End theory examinations respectively and 50 : 50 for IA and Semester End practical examinations respectively, in all the Universities, their Affiliated and Autonomous Colleges.

Total Marks for each course = 100%
 Continuous Assessment (C1) = 20% marks
 Continuous Assessment (C2) = 20% marks
 Semester End Examination (C3) = 60% marks

The outline for continuous assessment activities for Component-I (C1) and Component-II (C2) of a course shall be as under :

Activities	C1	C2	Total Marks

Seminars / Presentations / Activity	10% of marks		10%
Case study / Assignment / Field Work / Project Work etc.		10% of marks	10%
Total	20% of marks	20% of marks	40%

For practical course of full credits, Seminar shall not be compulsory. In its place, marks shall be awarded for Practical Record Maintenance. (The ratio is 50% : 50%)

- 13.4. The marks of the internal assessment shall be published on the notice board of the Department / College for information of the students.
- 13.5. The Internal assessment marks shall be communicated to the Registrar (Evaluation) at least 10 days before the commencement of the University examinations and the Registrar (Evaluation) shall have access to the records of such periodical assessments.

- 15.2. A candidate shall be declared to have passed the program if he / she secures at least 40% of marks or a CGPA of 4.0 (Course Alpha-Sign Grade P) in the aggregate of both internal assessment and semester end examination marks put together in each unit such as theory papers / practical / field work / internship / project work / dissertation / viva-voce, provided the candidate has secured at least 40% of marks in the semester end examinations in each unit.

 - iii. That education does not merely mean teaching students what they do not know; it means teaching them to behave in a way that is acceptable to the society.
 - iv. That what comes easy, will not last long. And what lasts long, will not come easy.
 - v. That 'Success' comes before 'Work' only in the dictionary.
5. Parents / Guardians are expected to remember that –
 - i. You educate your ward not to be rich, but to be happy, so that, when they grow up, they will know the value of things, not the price.
 - ii. Illiterate of this century will not be those who cannot read and write, but those who cannot learn, unlearn and relearn.
 - iii. Spending fruitful time with your ward is more important than spending money on them.
 - iv. Developing the mind is important. But developing the conscience is the most precious gift parents can give to their children.
 - v. The attitude you have as a parent is what your ward learn from more than what you tell them.
 - vi. They do not remember what you tried to teach them, they only remember what you are.
