Founder - Canara Institutions

# *Saga OF Our Founder*

*A great Founder  
never leaves memories;  
rather leaves indelible  
footprints on our minds*

**A**n institution grows in the shadow of the founder. He was a man, take him all in all, I shall not look upon his like again. It was on November 19, 1852 a legend named Sri Ammembal Subba Rao Pai was born at Mulky near Mangaluru. This star went ahead and created a universe of its own which emanates radiance in the form of talented individuals and shall continue to Pai emanate this radiance for time immemorial.

As a boy, Subba Rao was known to be mischievous, mediocre in studies, fond of play, a ringleader among the boys. But he was deeply respectful towards his elders and his esteem for his father amounted to reverence. He had his early schooling at Government High School, Mangaluru. It was the early demise of his mother that is believed to have profoundly influenced him to take his studies seriously. He stood high in matriculation and Fellow of Arts (F.A.) examinations. After passing his F.A examination with second Rank, his father sent him to Chennai to take up higher studies. Following his graduation from the Presidency College, he joined the Madras Law College where he topped the list of successful candidates of B.L. exam. In 1876, following the untimely demise of his father, he returned to Mangalore where he endeavoured to set-up his own and successfully practiced law. It is said that he often attempted to persuade amicable out-of-court settlements for his clients.

Sri Subba Rao was also an admirer of Nationalist leaders of India. He held Sri Aurobinda Ghosh in great admiration. Besides this, he was a patriot at heart, a humanist by action, a lawyer and a banker by profession, an educationist, and a social reformer by temperament, and a foremost among the pre-independence luminaries who shaped the future of Dakshina Kannada District and of the GSB Community. After ten years of his practice in Mangalore, he went back to Madras in 1887 to resume his practice there. It is there

that one day the four young men teachers, who approached him with a proposal to start a school in Mangalore. His deep concern for social uplift gave birth in 1891 the Canara High School, Mangaluru, the century old precursor to the conglomeration of Canara Group of Institutions today having fifteen institutions, an indeed posthumous history. Shortly thereafter, in 1894, with a view to encouraging the education of girls, he started the Canara Girls High School, indeed a revolutionary step considering the prevalent values and attitude of the people towards women's education at that time.

Further, with the disastrous crash of the Arbuthnot Company at the beginning of the 20 century, his concern about the high interest rates being charged by money lenders to the poor people of South Canara and his spirit of enterprise, gave birth to yet another national institution, the Canara Bank in 1906, formerly called as The Canara Hindu Permanent Fund Ltd. with a view to enabling the community to mobilize its own resources for self-help.

Sri Subba Rao's versatility was not confined to the legal profession alone. Along with his professional work in the mornings, the evenings were devoted to social work. He always remained silent about his own acts of kindness. He kept himself fully informed about the fast-changing world. His zeal and love for mankind touched life at all points. He was deeply saddened at the lethargy of the people towards education and realized that there was no future for the people without widespread general and higher education in professional and technical courses. Because of his enormous efforts, our young men were seen holding high offices both in the Engineering. Medical and other professional services at then.

The seeds sown by our founder a century ago have grown into huge tree providing shelter to the society in terms of education, employment opportunities and financial

support; thus, contributing to the welfare, prosperity, and progress of the society. A visionary far ahead of His times and life, Sri Ammembal Subba Rao departed to the heavenly abode on July 25, 1909. Though he shrugged off his mortal remains, he became a living soul and his philanthropic zeal continues to touch the lives of innumerable folks even today because the life of such a great soul is always placed in memory of the living. Sri Ammembal Subba Rao Pai forever lives in the realm of people's grateful memory and hearts, through the institutions he founded which has emerged as powerhouse of education and one among the leading nationalized bank

Sri Subba Rao always believed in creating an institution focused on social responsibilities. Focus on your goals and returns will follow was his dictum. As we continue to envisage the central mission and core philosophy of our institution, we draw enormous inspiration from our legendary Founder who continues to be the beacon of light for all our accomplishments and he ever remains the lodestar and spur for all our endeavours.

## GENESIS

### History and Origin

June 30, 1891, is a golden letter day in the history of Canara, because it was on this auspicious day that the seed of "CANARA", an esteemed Educational Institution was sown by that great legendary soul, Sri Ammembal Subba

Rao Pai who along with four visionaries viz., Sri U. Srinivas Rao, B. Padmanabha Baliga, B. Vaman Baliga & Arkal Vasudev Rao accomplished this noble task. With his deep concern towards social upliftment and also to encourage the education of girls, he started the Canara Girls High School, which was indeed a revolutionary step considering the prevalent values and attitude of the people towards girls' education at that time.

The decision to venture Canara College was in response to the growing demand for collegiate education at then from the old students and well-wishers of the Canara High School Association, and a general need to have an institution of higher learning which could impart quality education at affordable cost in Mangaluru. The encouraging support of the philanthropic public of Mangaluru soon resulted in the establishment of Canara College. The foundation stone of the College building was laid on July 12, 1972 by Dr. A. P. Pai, Senior Life Member of the College Committee. The College is grateful to its past President, the Late U. Gopalakrishna Nayak, who was instrumental in the establishing of the new buildings for the three High Schools, Junior College, and the present First Grade College as well. The College building was declared open on July 04, 1973 by Mr. Holck Larsen, the then Chairman and Managing Director of Larsen & Toubro Ltd. Ever since we opened the portals of this temple of learning, it has developed as one of the prestigious educational Institutions in the coastal educational hub of Mangaluru city.

Sri D. Vasudeva Kamath

*Dear Esteemed Readers and Well-Wishers,*

It gives me immense pride and honour to extend my heartfelt greetings on this monumental occasion as we celebrate the Golden Jubilee of Canara College, Mangaluru. As the President of the Canara High School Association, it's with great pleasure that I reflect upon the illustrious journey of our institution, carefully connected to education and values for more than 132 wonderful years.

Our roots trace back to the visionary leadership of Late Sri Ammembal Subba Rao Pai, an innovative luminary whose ideals continue to guide and inspire us. Canara College stands today as a beacon of academic excellence, nurturing individuals to become Educationally Empowered, Culturally Vibrant, Globally Competent, and Socially Responsible citizens.

Guided by our founder's ethos, our core philosophy revolves around imparting value-centric and character-building education. Our commitment to offering quality education at an affordable cost remains unwavering, rooted in the belief that education is the cornerstone of progress and upliftment.

The accolades and accreditations received, including recognition under the U.G.C. Act, 1956, affiliation to Mangalore University, and NAAC accreditation with an esteemed CGPA of 3.21 at 'A Grade,' validate our firm commitment to academic excellence.

At Canara College, we offer a diverse range of undergraduate and postgraduate programs, each meticulously crafted to foster holistic development and a thirst for knowledge. Our motto, "Educating for Righteous Life," summarizes our belief that righteousness and dedication to one's duties pave the path towards enlightenment.

The vision of Canara College echoes a definite commitment to be an institute of the highest repute, nurturing individuals who serve humanity's needs. Our mission revolves around instilling lifelong learning experiences that foster faith, knowledge, strength, service, and self-control—pillars that shape holistic transformation.

Embedded within our educational fabric are the core values, the 'Pancha Sheela,' which every Canarite represents: Faith in Divinity, Love for Knowledge, Strength of Mind, Self-Control, and Service to Mankind. These values transcend academics, shaping individuals who contribute meaningfully to society.

As we commemorate this Golden Jubilee, let us collectively reaffirm our dedication to nurturing a learning environment that is not just intellectually stimulating but also morally enriching, aesthetically inspiring, and culturally vibrant.

To all our students, faculty, alumni, and supporters, I extend my heartfelt gratitude for being an integral part of this incredible journey. Together, let us continue to strive for excellence, upholding the ideals and values that define Canara College.

Sri. M Ranganath Bhat

The Golden Jubilee celebrations of any organization is a time to reminisce all the events and mile stones of the fifty years of existence. Canara College too is no different. The present wave of achievements and accolades on which the college is riding has been the effort and commitment of countless faculty-teaching and non-teaching, who have sacrificed their lives in bring up an Institution by educating thousands of students every year. Looking back at each event in the history of Canara College, we marvel at the pace and the momentum with which the college strived to turn out young men and women who would be prime movers to propel our Nation into the future.

Students are breaking records at all levels in sports and cultural activities and the energy level in the college seems to be at a new high. Today Canara College is moving at brisk pace by adding many new educational Courses and increasing the student strength. The NAAC 'A' is a way forward for the college to improve itself and move towards being an Autonomous one within a short time.

My Compliments to CA Jagannath Kamath, Correspondent and Sri Shivanand Shenoy, Manager for mentoring and guiding the leadership, i.e., Principal and Administrator of the College to inspire the entire faculty and students to excel.

*An annual magazine is reckoner & a memorabilia for each one who possesses it, as this becomes the fallback in the days & years to come. Moments gets captured & beautifully translated into memories & at the end it's the everlasting memories that we forever cherish.*

Dear all

I am delighted to connect with each one of you through the annual college magazine, Mangala. It brings me immense joy to announce that our college has reached a significant milestone of 50 glorious years this year. These five decades have bestowed upon us invaluable experiences. The alumni of this institution are now holding esteemed positions, both nationally and internationally. CANARA, our institution, has grown steadily and claims a rich history. It is here, in this college, that many careers have been nurtured and shaped.

The year has been marked by celebrations commemorating the Golden Jubilee, with numerous events and activities taking place. At this juncture, I consider it my duty as the Correspondent to express my immense appreciation and deep gratitude to everyone who has contributed to the current standing of the college. The past management, principals, teaching and non-teaching staff have all played their roles, and the current team continues to strive every day to add value and enrich the experience available to students, guiding them towards their desired future. I have every confidence that the students of our college are exceptionally bright and will make the most of the available opportunities for their growth. We are dedicated to providing an unparalleled overall experience to the student community, and I want to assure you all that we will spare no effort in making this college the best in its segment.

I extend my best wishes to all the students for their future careers and endeavors.

Sri K. Shivananda Shenoy

## *Message* *Manager of Canara College*

I am delighted to send my heartfelt greetings to Canara College as it celebrates its Golden Jubilee. As an alumnus, being the Manager of the College at this moment fills me with immense pride and honour. The Golden Jubilee is a significant milestone, marking a crucial moment in the institution's history. Since its establishment in 1973, our students have consistently achieved commendable ranks, surpassing 120 to date. Embracing the motto 'Educating for Righteous Life,' every student passing through aspires to become a lifelong learner, merging moral integrity to attain profound knowledge and lead an ethical life.

Over the years, the college has evolved into a premier institution dedicated to delivering top-notch education while fostering a rich array of co-curricular and extracurricular activities. Remaining attuned to its surroundings, the college has consistently initiated pioneering efforts, shaping itself into a beacon of learning.

On this momentous occasion, I extend warm greetings and felicitations to our esteemed past and present staff members, students, and alumni. Let's recommit ourselves to contributing to the vision of a New India.

Dr. Premalatha V

## *Message Principal of Canara College*

This Souvenir commemorates the Golden Jubilee of Canara College, serving as a testament to the unwavering commitment, diligent effort, and generosity of the Canara High School Association. It is a profound honor to lead an institution that, over five decades, has transformed into a stronghold of excellence and achievement. This institution has steadfastly pursued the noble goal of advancing quality education within an inclusive and forward-thinking environment.

At present, the college holds a prestigious 'A' Grade accreditation from NAAC, with a commendable CGPA of 3.21/4. Situated amidst a cluster of esteemed educational institutions, our college stands out as a beacon for higher education. It has undergone a transformative journey, emerging as a distinguished undergraduate institution. Canara College takes pride in its students, who not only secure top ranks in the university but also spearhead initiatives in innovation and entrepreneurship, all while embodying a strong commitment to social service.

Canara alumni represent diverse backgrounds and constitute a significant presence across various key sectors. This includes esteemed individuals in Politics, Public Service, Chartered Accountants, Industry Leaders, Entrepreneurs, and Corporate Executives. The college's infrastructure is consistently enhanced to ensure optimal support for our stakeholders and to adhere to the highest standards.

Grounded in the five principles of Panchasheela, the institution endeavors to nurture in every Canarite the values of Shraddha, Jijnasa, Shakti, Samyam, and Sevanishta, with the ultimate goal of educating the younger generation for a purposeful and virtuous life.

I extend my heartfelt congratulations to the team behind this outstanding edition of the souvenir. Additionally, I offer my best wishes to the entire Canara Family as they embark on the journey of exciting challenges that lie ahead.

## *Message* *Prof. GG Prabhu*

I started my teaching career as a science teacher in a girls' high school in the city in 1972. In 1973, I joined Canara Institution, initially as a physics teacher at Canara Pre-University College from 1973 to 1975 and then at Canara First Grade College from 1975 until my retirement in 2010.

During my tenure, I actively participated in various student activities, both curricular and extracurricular, aiming to build confidence and prepare students to face life's challenges. I received ample support from the founder Principal, Sri G.K. Shenoy, and his successor, Sri B.V. Upadhyaya. Many students from science, arts, and commerce streams, who benefited from these activities, remain in touch, some of whom have already retired from active service and still wish me on Teachers' Day every year.

When all the staff members of an institution work with the same zeal and alacrity, any institution is bound to grow and earn a name, and Canara First Grade College is no exception. It is celebrating Golden Jubilee this year. 50 Years in the history of an institution of repute may be just a wink of the eye in the backdrop of fathomless flow of time, but it has left an indelible impression in the minds of people of this part of Karnataka. Over these fifty years thousands of students have walked out of the portals of this edifice of learning, transformed into good citizens, as agents of change, with a heart filled with hope for a brighter future, head filled with ideas to effect this change. It is truly said that there is nothing permanent, except change.

Being part of Canara College, managed by Canara High School Association, fills me with pride. The association has overseen Canara High School (Main) since 1891, where my father, Sri G. Padmanabha Prabhu, devoted 39 years from 1931 to 1970.

I wish Canara a Glorious Future.

It was truly enriching to serve under the guidance of Prof. G K Shenoy, Prof. BV Upadhyaya, Prof. NR Javali in the college, and Prof. Laxman Pai in the chemistry department. Their leadership has been instrumental in shaping a nurturing environment.

The firm commitment of a principled management and dedicated teachers has been the cornerstone of quality education for the past 50 years. They have not only imparted academic knowledge but also instilled invaluable moral values and a sense of social responsibility in the minds of numerous young individuals.

I extend my heartfelt congratulations to the team as they celebrate the Golden Jubilee. My earnest wish is for Canara College to continue nurturing our cultural heritage and shining brightly in the realm of education for many more years, thus realizing the dreams of Sri Ammembal Subba Rao Pai.

The Golden Jubilee stands as a momentous milestone in the life of an institution. From its humble beginnings, Canara College has blossomed into a distinguished center of learning. It brings me immense joy to celebrate the completion of 50 years, a journey marked by invaluable contributions to higher education and society at large.

Throughout these five decades, the institution has imprinted remarkable achievements across academic, cultural, sports, NSS, and various other domains. Our students have consistently excelled, securing prestigious ranks in University Examinations, bringing immense pride not just to themselves but also to their families and the institution.

The illustrious accomplishments of our esteemed Alumni, spanning diverse fields across India, stand as evidence to the quality of education imparted here. The recent attainment of an 'A' Grade in the fourth cycle of Accreditation by NAAC adds yet another feather to the college's cap. My heartfelt congratulations extend to all stakeholders for their sincere and dedicated efforts in propelling the institution forward.

The College Management's unwavering commitment to upholding exceptional academic standards has been pivotal in this journey of growth and success.

As we commemorate this momentous occasion, I extend my sincerest wishes for Canara College to continue flourishing and serving society for many more prosperous years ahead.

I am excited to hear that Canara College, Mangalore, has achieved a significant milestone of 50 years and is getting ready to observe its Golden Jubilee in 2023. Such a remarkable milestone offers not only an occasion for nostalgic reminiscence but also a valuable opportunity for introspection. Founded by the great legendary Sri. Ammembal Subba Rao Pai, Canara College, Mangalore, has made profound contributions to society by nurturing young minds and instilling in them a sense of responsibility as enlightened citizens. The institution's steadfast commitment to nurturing a culture of mindful and influential initiatives is apparent through its ongoing endeavors to enhance academics, administration, as well as extracurricular activities. This commitment to growth and excellence is truly commendable.

Observing Canara College's journey from strength to strength is indeed gratifying. The institution's ability to adapt to the changing times while remaining contextual is a testament to its dynamism and resilience. It has rightfully established itself among the elite ranks of educational excellence. On this momentous occasion of the Golden Jubilee, I extend my heartiest congratulations to the Management, Principal, Staff, and Students. Their tireless efforts have played an integral role in shaping the institution into what it is today. Whether young or old, every individual associated with Canara has ample reason to look forward to the future with confidence and hope, just as they can look back with immense pride on their journey so far.

To the entire Canara family, my warmest good wishes for a bright and promising future. May the institution continue to flourish and shine brightly as it paves the way for the intellectual and personal growth of countless generations to come. Congratulations once again on this momentous achievement!

## ***From Rank Holder***

I am the first among many rank holders from our esteemed Alma Mater. My educational journey spans from Canara High School to Junior College and Canara College, shaping my life profoundly through Canara Institutions. My gratitude extends to the teachers at Canara College, especially Shri K. V. Bhakta, my physics teacher, who personally assisted me in obtaining and completing the M.Sc. application from Mysore. I am indebted to the late Shri K. Laxman Pai, who provided financial support until I secured my delayed merit scholarship, even lending me valuable books. The unwavering encouragement from my teachers empowered me to pursue and complete my doctorate in Chemistry from IIT Kanpur and engage in postdoctoral research in Germany and the USA.

As we embark on the jubilant celebration of Canara College's Golden Jubilee, my heart swells with immense pride and gratitude. These fifty years stand as a testament to the enduring legacy of excellence, knowledge, and growth that our esteemed institution has cultivated.

Reflecting on the transformative years spent within your halls, I am filled with nostalgia and appreciation for the foundation you have provided. It is here, within the embrace of Canara's educational prowess, that countless lives, including mine, have been shaped and nurtured.

As we celebrate this remarkable milestone, let us not just revel in the past but also look forward to the promising future ahead. May Canara continue to be a beacon of knowledge, innovation, and inclusivity, inspiring generations to come.

Congratulations on this Golden Jubilee! Here is to fifty years of excellence and to the bright horizons that lie ahead.

## *Canara College : Journey on The Golden Track : My Thoughts*

It is truly gratifying to witness my cherished alma mater, Canara College, nearing the remarkable milestone of five decades in delivering invaluable service in education—meaningful, purposeful, and meritorious. My heartfelt congratulations to the College, its past and present Management, faculty, and all contributors, including the Alumni, for their collective efforts in reaching this significant institutional milestone. I believe this momentous occasion will catalyse further success and pave the way for even greater accomplishments.

On this remarkable occasion, I express wholeheartedly that the College and its faculty have provided invaluable and immeasurable contributions to shaping the careers and lives of Canara College graduates. The faculty's dedication often extended beyond their roles and working hours to equip students with essential skills in their chosen fields.

The College's growing reputation, evident through academic achievements, sports triumphs, and alumni success across various fields, owes much to the dedicated faculty. Their consistent efforts have led to numerous accolades and the widespread presence of alumni in esteemed positions across diverse professions and public spheres, showcasing the enduring quality education imparted since the College's inception.

Like many others, I was fortunate to have my formative education at Canara College, a journey that began in my primary years and extended through college. Coming from a banking family, I harboured a silent aspiration to join a bank affiliated with Canara. I seized an opportunity to work part-time in one such bank during my college days, though destiny only partially fulfilled my dream; despite earning a Gold Medal, I ventured into banking successfully, although in a different esteemed institution. Reflecting now, I have no regrets—thanks to the knowledge instilled during my college days, I thrived as a career banker, eventually reaching the role of a General Manager.

I owe my transformation from 'nobody' to 'somebody' entirely to the exceptional education I received at Canara College. This education not only shaped my future but also lifted me from a position of having 'nothing' in life—no breadwinner in the family and relying on relatives for support. It propelled me 'everywhere' from 'nowhere,' offering 'everything' when all I had was my education and

degree. I am deeply grateful for the merit scholarships and financial aid from the College, ASRP Memorial Fund, and other charitable organizations that supported me during those crucial times.

I fondly reminisce about my three academic years (1975-1978) at the College, where our batch joined when the institution was just three years old. Despite its early stage, the College boasted essential facilities, notably a well-stocked library. The faculty, young and dedicated, later became revered figures and leaders within the College, some rising to the position of Principal. They were demanding yet effective, effortlessly commanding the attention of large classes. I recall how their teaching ensured a disciplined and attentive atmosphere, leaving no space for mischief or distraction.

- Reflecting on my transformative college days, some vivid memories persist:
- Hours spent in the college library, absorbing knowledge from renowned authors for exam preparation.
- Engaging discussions with mentors in the lecturer's room after classes, seeking guidance.
- Eagerly participating in class, striving for recognition by answering challenging questions.
- Carrying multiple answer sheets in exams to reinforce answers and maximize marks.
- Strategically borrowing meticulously taken notes from classmates, especially from those with impeccable handwriting.
- Occasional class 'bunking' for intensive exam preparations.
- Full dedication to studies, oblivious to extracurricular activities around me.
- Remaining in the same classroom and seat throughout the three-year course.
- Enjoyable bicycle rides to and from the college, enjoying the calmness of low traffic.
- Collecting autographs at the course's end, cherishing each one.
- A standout memory: focusing solely on past exam papers for final preparation, leading to securing the First Rank by accurately anticipating the exam questions, followed closely by a classmate in the second position, both achieving remarkable scores.

Looking back, a few regrets linger, particularly my inability, much to my disappointment, to personally attend the Annual College Day in December 1978. Despite my desire, I had recently moved to Mumbai for my first posting as a Bank Probationary Officer and could not secure leave from my job in time to receive my prizes and deliver the customary Toast for my alma mater. Similarly, I missed the Award Ceremony by Mysore University in February 1979 to honour the Rank Holders for the same reason. It was not until 1980, a year later, that I managed to collect my Gold Medal from the Mysore University office after completing necessary formalities.

I will always regret missing a significant opportunity in 2012 when the College invited me to be the Chief Guest for the Annual College Day. Unfortunately, due to work commitments, I could not accept. This, compounded by my post-graduation failure to stay connected with the College, faculty, and Alumni, weighs heavily on me. The passing of some remarkable individuals from that time intensifies this regret, a mistake that will linger as a lifelong remorse.

Receiving personal felicitations and a memento as the 1978 B.Com First Rank Holder during the College's Golden Jubilee Celebrations was profoundly fulfilling. The thoughtful event organized to honor all rank holders, including since the College's inception, brought immense solace, pride, and satisfaction. Words fail to express my gratitude for this once-in-a-lifetime opportunity. It was a deeply nostalgic and humbling experience.

Adhering to the adage 'better late than never,' the 1978 B.Com batch recently celebrated a memorable Re-Union Day after 44 years of graduation on November 6, 2022, right within the College Campus. In the esteemed presence of faculty members and the incumbent Principal, it was a nostalgic and joyous occasion where we reminisced about all our experiences, both delightful and challenging, during our college days.

As a member of the 1978 batch, I am part of a WhatsApp group where we cherish old memories and delve into discussions on current events, the College's progress, and achievements. It is commendable to witness how the College has consistently adapted to the evolving educational landscape and student expectations, providing robust support systems, and facilitating both academic and extracurricular activities.

It is often said that excellence knows no bounds. My heartfelt wish is for the College to not only surpass its own remarkable academic and extracurricular achievements but also maintain its leading position among educational institutions for generations to come. I am confident that this journey along the golden path will endure, yielding admirable performances year after year. May the College's rich legacy continue eternally, enviable, and far-reaching. Thinking of a Robert Frost poem, "The Road Not Taken," reminds me of the significance of our choices in shaping life's journey, big or small. I am confident that the Canara College Management, in their pursuit of this golden journey, will navigate successfully through the unexplored paths, ensuring success in every choice they make, whether grand or modest.

In conclusion, I humbly pay homage to this revered 'Temple of Learning,' echoing the sentiments of Canara's vast Alumni community. My heartfelt wishes extend to the College, its dedicated team, and management, urging them to continue their multidimensional efforts in shaping the future generations of our nation. May they triumph in facing challenges and seizing opportunities, paving the way for even greater success, glory, and brilliance.

Before signing off, I reaffirm my pride as a staunch Canarite. 'Sarve Jana Sukhino Bhavanthu.' 'Jai Canara.' 'JAI HIND.'

## *Down The Memory Lane ...*

My journey at Canara College as a graduate student in the BSc PCM program began in July 1987. Honestly, it felt like uprooting from my familiar surroundings down south! The language, the culture—everything vital at that age—was different and challenging. However, thanks to the caring professors and the wonderful friendships that blossomed here, I quickly found my footing. The campus became my second home.

Today, standing proudly as an esteemed alumnus of Canara College, I feel privileged to recount my experiences and cherished memories of this esteemed institution. The felicitation by the generous Management on April 18, 2023, made me immensely proud. The college held a proud legacy of delivering high-quality education to students from various backgrounds. The professors, with their rich qualifications and approachability, went the extra mile to assist students in achieving their academic aspirations. There was a strong bond between students and teachers, yet there remained a respectful boundary. Despite not always sitting in the front row, earning the goodwill of my teachers greatly facilitated better communication in a professional setting. Seated among the lively classmates, engrossed in the fascinating lectures, felt like delving into the realm of imagination.

I extend my heartfelt gratitude to the faculty, staff, and fellow students of Canara College for crafting some of the most cherished moments of my college days. My gratitude knows no bounds for the then Principal, Upadhyaya sir, and our esteemed Physics teachers - Bhaktha sir and GG

Prabhu sir, Lakshman Pai sir, BS Moodithaya sir, and MM Achar sir from the Chemistry department, HR Naik sir from Mathematics, English teacher Narayan Bhat sir, PT teacher Damodar sir, Hindi teacher Kambli sir, along with the dedicated laboratory staff members such as Shri Ramanna and Shri Devadas, not forgetting the ever-kind and highly professional office staff of Canara College. Their commitment to fostering a positive student-teacher relationship created an environment that catered not only to academic needs but also emotional ones. I hope the college continues to inspire and nurture generations of students to come.

Reflecting on the collage of memories from my student life, the absence of my classmates is deeply felt. Niranjana, Archana Kamath, Manuprakash, Prasanna, Suryanarayana Karanth, Jnanendra, Jayanthi Shenoy, Sujatha, Anuradha Baliga, Sulekha, Radhika Rao, Mamatha, Kishor, Vishnumurthy, Sandhya, Giriprakash, Nandini, Savitha, Rekha Reshmi, Sujatha Rao, Sowmya, Mallika Samaga, Sudha Bhat, Umakanath Naik... Their encouragement wove a significant thread in my life.

Beyond academics, Canara Management provided a plethora of opportunities for skill and talent development. The vibrant cultural and sports scene, along with diverse clubs, enriched our experiences. I actively participated in the Science Club and sports activities. Guided by senior professors, the Science Club's occasional meetings are fondly remembered. It served as a platform to improve presentation skills and showcase technical articles, a source of pride for students.

# *A Tribute to My Alma Mater*

Reflecting on my college days never fails to brighten my spirits, painting vivid scenes of cherished moments. My late Grandfather, Sri U.D. Nayak, the esteemed founder principal of Canara P. U. College, remains an influential figure in shaping my path. The journey through Canara Degree College was an absolute blessing. Exceptional educators made learning an enjoyable pursuit, their friendly guidance ensuring our doubts found swift resolution. Alongside these mentors, I was fortunate to forge enduring friendships.

My initial two years yielded commendable academic achievements. However, during my final year, amidst the joyful chaos of my November wedding, I missed several classes. The looming concern about my exam performance lingered, yet with divine grace, the support of my elders, the unwavering encouragement from my husband and in-laws, I triumphed, securing the 7th rank in B. Com (2002). It stands as evidence to the institution's stellar education and the honor of achieving a ranking. I take immense pride in my affiliation with this esteemed establishment, a place not just for learning, but for nurturing success.

### ***Esteemed Members of Canara College,***

I, Kalpana Prabhu, am privileged to have been a BCom student during the academic year 1986-87, culminating my studies at Canara College. Your recent communication regarding the celebration of the institution's golden jubilee and the felicitation of rank holders has filled me with immense joy and gratitude.

Securing the 10th rank in the Mangalore University final year exams was a proud moment, underscoring the exceptional education and unwavering support extended by the faculty and staff of Canara College.

This golden jubilee celebration not only commemorates fifty glorious years of the college's journey but also celebrates the achievements of numerous students who have benefited from its nurturing environment. As we honor this milestone, let us collectively express our gratitude to Canara College for fostering an environment conducive to learning and personal growth.

To the management, faculty, staff, students, and fellow alumni of Canara College, I extend my heartfelt wishes on this momentous occasion. May the institution continue to prosper and radiate as a bastion of knowledge, empowering lives and contributing to the advancement of society.

Dear Alma Mater,

Writing this tribute fills me with immense affection and deep gratitude. You've been instrumental in shaping the person I am today. Three fruitful years of my academic journey were nurtured under your guiding influence. I extend heartfelt gratitude to my professors who stood by me, offering support through thick and thin. Looking back, I take pride in being part of a family where two members, including my father, are proud alumni of this exceptional institution.

As our college marks its Golden Jubilee, I envision even greater accomplishments when it celebrates its Platinum anniversary and Centenary. May more accolades adorn its legacy, and its prestige continue to soar.

Sincerely,

*Raksha Kini M*

Dear Madam,

After finishing my undergraduate degree in B.Com, I pursued Chartered Accountancy. Once I completed my C.A., I embarked on my career at Premier Auto Electric Ltd., Mumbai, dedicating 6 years to the company. Following my family's path, I lived in four more countries: Thailand, Malaysia, Belgium, and the USA, gaining work experience. For the past decade, I have been devoted to volunteering for an NGO.

My family has strong ties to Canara Institution; my husband is also an alumnus. Both my children have grown up: my daughter, a Chartered Accountant from the UK, works at PWC in London, while my son, a mechanical engineer with a Master's in Finance, works in New York City.

Studying at this esteemed educational institution has been a significant blessing. Canara Institution not only imparted top-tier education but also fostered my growth as a good human being.

I am deeply grateful to all my teachers and professors who guided me through my school and college years. They did not just teach subjects but also imparted invaluable life lessons that steered me toward success.

I want to express my gratitude to the management committee for honoring me. May this institution continue to achieve greater heights. Thank you for shaping me into who I am today.

Thank you,

Best Regards,

I am M. Sudhakara Mallya, born on 02.06.1973 to Late Sri M. Sadananda Mallya and Late Smt. Jayanthi Mallya in Mangalore. My educational journey began as part of the inaugural batch of Canara Balawadi in 1978. I completed my primary education at Canara Higher Primary School, progressed through Canara High School (Main) for my high school years, pursued my PUC at Canara PU College, and earned a Bachelor of Commerce degree from Canara First Grade College in 1994, securing the 5th Rank in Mangalore University.

In 1995, I embarked on my career with the Department of Posts, Ministry of Communication. Through dedication and success in the Inspectors Examination and Postal Services B Group Examination, I attained the position of Indian Postal Services Group 'A' in 2015. My service spanned various regions in Karnataka, Telangana, and the Postal Directorate, Ministry of Communications, New Delhi, serving in diverse capacities.

Currently, I am honored to serve as the Senior Superintendent of Post Offices, heading the Mangalore Postal Division. It's a delightful coincidence to mark my 50-year association with my alma mater in this same year, a proud celebration of my enduring connection to my educational roots.

As we joyfully commemorate Canara College's golden jubilee, I'm flooded with heartfelt gratitude and fond memories. For five decades, our revered educators have been beacons of guidance, igniting our curiosity and molding us into the individuals we've become. Their unwavering dedication to our academic and personal growth has profoundly influenced us, leaving an enduring mark on our lives and inspiring us to strive for greatness. I extend my deepest appreciation to the management and staff whose vision, dedication, and tireless efforts have fostered an enriching learning environment.

This momentous occasion calls for honoring our college's legacy and recommitting ourselves to carrying forward the torch of knowledge and enlightenment. As we revel in the golden jubilee, let's express gratitude, cherish the present, and sow seeds of inspiration for the future. Canara College stands as a beacon of educational transformation, owed to the steadfast commitment of our teachers and management.

Canara College... The very mention brings back a flood of memories. The teachers here were incredibly supportive, always there to lend a helping hand. I owe my good marks and rank to their guidance. I'm truly proud of my college and grateful for my teachers.

Reflecting on the cherished moments spent within your walls fills me with nostalgia, akin to a warm embrace. Canara College, a haven of knowledge and personal development, holds a special place in my heart.

Your vibrant classrooms provided the nurturing environment where I was challenged to exceed my limits. The dedicated faculty members, like guiding lights, ignited in me a lasting love for learning that continues to shape my journey.

As I pen these thoughts for the college souvenir, my heartfelt gratitude extends to the institution that laid the groundwork for both my academic and personal growth.

To Canara College,

As you reach this incredible milestone, my heart is filled with joy. Let me raise a toast to my beloved Canara, a place that's been part of my life since kindergarten, almost like a second home. Words can't completely capture my seventeen years here, but I'll try.

Our college has truly stood the test of time. It's been an amazing place, offering top-notch education, great opportunities, and the unforgettable college experience we all cherish.

I used to tell my sons that if I ever found a time machine, I'd go back to my college days in Canara to relive those golden moments.

A big thanks to all the teachers in the commerce department who made my three years of BCom so special. And a special mention to Professor B.V. Upadhyaya, our principal back then, who brought out the best in me.

I feel blessed to have toasted our institution during its silver jubilee after securing the first rank in BCom in 1997, and now, again, during its golden jubilee.

My three brothers and I couldn't have asked for a better college than Canara. May this college keep excelling and soaring higher. I'm proud to be a Canaraite. Here's to Canara College, wishing you a happy golden jubilee, and here's to many more years of success and growth.

Thank you.

# *Canara Milestones*

**I**n every struggle lies the seed of strength. Progress demands sacrifice, tireless effort, and the fervour of dedicated individuals. These words epitomize the visionary, Sri Ammembal Subba Rao Pai, a pragmatic leader pivotal in establishing the strong foundation of CANARA institutions in Mangalore. He envisioned fostering compassion and alleviating hardships, advocating for service and dedication to humanity. CANARA stands today on these enduring principles of progressive leadership and adaptability.

Born on November 19, 1852, Ammembal Subba Rao Pai crafted a legacy that continues to shine brightly. His journey commenced with the founding of Canara Bank, now a cornerstone of India's banking landscape. This marked the beginning of the Canara family's exponential growth, culminating in the establishment of esteemed educational institutions like Canara Girls' High School and Canara College. Each venture became an evolutionary milestone, contributing to a legacy that radiates brilliance.

Milestones are significant events in the lifetime of every institution be it in terms of achievements or the number of years of existence. Canara has had many milestones to celebrate and opportunities to introspect on the past. Canara College, with its illustrious history of nearly five decades, has created a niche for itself as a pioneer in imparting quality education at affordable cost. The rush for admissions in the College had induced the management to venture into different field of studies. Drawing strength from our revered legendary Founder and as we progressively march to realize the noble vision to produce

good educated citizens who shall strive and cater to the needs of mankind, Canara has continued to be a name to reckon with. Today, Canara College has been recognized and identified as one of the reputed institutions in the combined districts of Dakshina Kannada and Udupi. Besides catering to the needs of linguistic minority community, and diversity of students from neighbouring and other states coming from varied backgrounds, the institute has been witnessing an increasing influx of students taking admission in Canara, this testifying its growing popularity.

The year 2023 earmarks the Golden Jubilee of the Institute's illustrious existence. As it leaps forward to commemorate the 50 glorious golden years of service in educating for Righteous Life, it is indeed a matter of immense pride that Canara College marked yet another milestone of having been reaccredited by NAAC with 'A' Grade in its Fourth Cycle of A & A in 2022. Progressive outcome of the accreditation, University Ranks, accolades, and laurels brought by our students stand testimony to our incredibly splendid journey, and provide a motivation for us to further elevate our bar of excellence; thereby strive continuously in the journey of quality.

Therefore, the mammoth growth of institute has not happened because of sheer chance, like a tree that depends on continuous supply of life from earth, the institution has been sustained by its proud alumni, generation after generation along with the collective might of the stakeholders, and of course, by the Divine grace.

Dear Readers,

As we celebrate the 50th year of Canara College's illustrious journey, it is with immense pride and gratitude that we reflect on the remarkable milestones and contributions that have shaped this institution into the beacon of academic excellence today.

Established in 1973, Canara College, Mangalore, got on a mission to redefine education, surpassing conventional patterns to foster holistic learning and intellectual exploration. Half a century later, the college proves the unwavering dedication, commitment, and strong belief in how education can change lives.

Throughout its journey, Canara College has been committed in its pursuit of nurturing the talents and aspirations of its students. Beyond academic excellence, the institution has tirelessly worked to create an environment that encourages participation in extracurricular activities, nurturing a culture that values

multifaceted development.

Canara College's legacy isn't just about grades—it's about the rich mix of talents, ideas, and creativity from students and faculty that has made this place a center of innovation and creativity.

The key to Canara's success story is the synergy between an exceptional faculty and an engaged student body. Their combined hard work has always pushed the college ahead, helping students become not just skilled but conscious leaders ready to handle world's challenges.

As we celebrate this important time, we honor all the people who have been part of this college—the teachers who shared knowledge and the students who learned and grew here, each adding a unique hue to the canvas of Canara College's journey.

The Golden Jubilee Souvenir Magazine stands as a tribute to these 50 glorious years—a chronicle of achievements, memories, and the spirit that defines Canara College. It summarizes the essence of our journey, celebrating our triumphs, and inspiring us to embrace the endless possibilities that the future holds.

To everyone who has been a part of Canara College's journey—staff, students, and alumni—thank you for being instrumental in shaping this legacy of excellence. As we commence our journey into the next phase, let us continue to uphold the values of knowledge, integrity, and compassion that define us.

Here's to 50 years of brilliance and to the countless chapters yet to be written!

Warm Regards,  
Dr. Kalpana Prabhu J,

# Report on Felicitation to Rank holders

During the Golden Jubilee Celebration, our esteemed Alumni Rank-holders were honored for their remarkable achievements and outstanding contributions during their time at the college. The Felicitation to Rank-holders took place across three distinct events: the Golden Jubilee Inauguration, the Global Alumni Meet at T.V. Raman Pai Hall, and the College Day festivities.

Over a hundred distinguished rank-holders graced the occasion, each receiving tokens of appreciation and love from the college community. It was heartening to witness many of these accomplished alumni accompanied by their families, further enriching the celebratory atmosphere.

The felicitation ceremonies were presided over by esteemed dignitaries, including the Vice President, Sri M. Padmanabh Pai; the Treasurer of CHS Association, Sri C. A. Vaman Kamath; the Correspondent of our College, C. A. M. Jagannath Kamath; and Manager Sri K. Shivanand Shenoy. Dr. Premalatha V, the Principal, extended heartfelt felicitations to all the rank holders, acknowledging their exceptional achievements.

Additionally, the retired teachers of our college, including Sri G.G. Prabhu from the Physics Department, Sri Satish Bhat from the Commerce Department, Sri B. Moodiyhaya from the Chemistry Department, and Dr. P. Ananthkrishna Bhat from the Political Science Department, bestowed blessings and encouragement upon the rank-holders. Their words of wisdom and motivation resonated not only with those honoured but also with the current cohort of young students, inspiring them towards greater excellence.

The list of felicitated rank-holders are as follows: -

# *Annual College Report*

## *For The Year*

### *2022-23*

Honorable dignitaries on the dais, distinguished guests, parents, teachers, and students!

College Day is one great occasion to revisit our great heritage, share our dreams, celebrate our achievements, unravel the future vision, and reaffirm our commitment to imparting quality education for all sections of the society. Every year brings with it so much freshness, new ideas and new horizons yet to be explored. I am pleased to present the Annual Report of our college, as we celebrate our Golden Jubilee this academic year. It has been a momentous year for our institution, marking fifty years of academic excellence, personal growth, and community impact. On this occasion I would like to pay my tribute to the great luminary and visionary, Late Ammembal Subbha Rao Pai, the founder of Canara Group of Institutions. As a leading institution of higher education, our college has continued to maintain high standards of academic excellence.

In this report, I reflect upon the achievements, challenges, and progress made over in the academic year 2022-23. With our Motto- “Educating for Righteous Life” and with the Vision- “To be an Institute of the highest repute and produce good educated citizens who shall strive and cater to the needs of Mankind”, Canara college has been striving towards academic excellence and holistic personality development. The college has been reaccredited by NAAC at ‘A’ Grade in the fourth cycle with a CGPA of 3.21 out of 4.0 in 2022. We have initiated action to bridge the gap between the institution and industry through various Certificate courses, Modules on Personality Development, Courses on Life Skills, Courses on Global Competencies and Personal Counseling.

#### **Academic Excellence**

We have an outstanding staff, committed to providing quality education to our students. We offer a wide range of courses, from undergraduate to postgraduate, in various disciplines, including science, commerce, and management. Our students have consistently performed

well in their academic pursuits, and we are proud of their achievements.

The results of the Oct/Nov 2022 university examinations have been announced and the overall performance of the students has been impressive in various courses, including B.C.A, B.Com, B.Sc., B.B.A, and M.Com. The students who appeared for the B.C.A VI Semester examination have secured an overall result of 95%. The B.Com VI Semester students have secured 90%, while the B.Sc. VI Semester students have also secured 90%. The students who appeared for the B.B.A VI Semester examination have secured 91%, while the M.Com IV Semester students have secured an excellent result of 100%. The college should be proud of the students' performance in the Oct/Nov 2022 university examinations, which highlights the high standards of academic excellence maintained by the institution. The students' outstanding performance will inspire future students to work harder and aim for similar success in their academic pursuits.

#### **Infrastructure and Facilities**

We have made significant investments in our infrastructure and facilities over the past year. We have upgraded our classrooms, laboratories, and library to provide an optimal learning environment for our students. We have also invested in technology to enhance our teaching and learning experience. We have installed high-speed internet connectivity across the campus, enabling our students and faculty to access online resources seamlessly. The College Library and Reading Room provides several facilities for students to inculcate the habit of reading. The library has a total of 46,199 books worth Rs. 54, 67,220. Additionally, 5088 books were donated by different donors. The PG library has 562 books worth Rs. 2, 36,443.00. The College Reading Room receives 10 dailies and 35 periodicals. The Department of Library and Information Center has been taking steps to encourage students to make use of the library facilities. One such step is the Best Library User

Award, which recognizes and rewards students who make the best use of the library facilities.

With great pleasure, I would like to mention that ten classrooms and the computer lab have been renovated and upgraded with the latest LCD projectors, screens, and CC cameras, courtesy of our outstanding Management. This remarkable effort is aimed at enhancing the overall functioning of Canara College, and we are extremely grateful to our Management for their unwavering commitment to excellence. On behalf of the entire staff and student body, we express our heartfelt gratitude to the Management for their remarkable contribution towards the betterment of our institution.

### **Research and Development**

We have made notable progress in advancing research and development in various fields. Our faculty members have published research papers in prestigious journals, and our students have presented their research work at national and international conferences. We have also collaborated with industry partners to promote research and innovation in the community. The Internal Quality Assurance Cell (IQAC) of the college plays a vital role in maintaining quality standards in teaching, learning, and evaluation. IQAC ensures that the institution complies with the norms and standards set by regulatory bodies like the University Grants Commission (UGC). IQAC also assists in developing a quality culture in the institution by organizing various workshops and training programs for faculty and staff. These programs aim to enhance the skills and knowledge of the staff to improve the quality of teaching, learning, and evaluation. We are proud to say, the IQAC has been playing a critical role in maintaining quality standards in teaching, learning, and evaluation and its efforts lead to the continuous improvement of the institution and help in achieving academic excellence plays.

### **Community Outreach**

As part of our commitment to giving back to society, we have undertaken various community outreach initiatives. We have organized health camps, blood donation drives, and awareness campaigns on social issues. The NSS, Youth Red Cross Society, Rovers and Rangers units of the college believe in creating responsible and socially conscious citizens who can make a positive impact in our society. The NSS team also organized various awareness campaigns on Blood Stem Cell Registration, Eye and Organ Donation, ABHA Registration, Waste Management, Malaria and Dengue, Substance Abuse, and Government Schemes. The NSS units successfully organized a Blood Donation Camp wherein 158 units of blood were donated by the students and staff members of Canara College.

### **Parents Teachers' Association**

The College has taken a significant step towards building a

better rapport with parents by forming a Parents Teachers' Association (PTA). The PTA has been conducting class-wise parent-teacher meetings to improve communication between the parents and the institution, which has proven to be quite effective.

The PTA has also formed an Executive Committee comprising of 9 parents who will work towards the betterment of the institution. The office bearers of the PTA are Mr. K Santhosh Kamath as President, Mr. Shekara Naika as Vice President, Dr. Premalatha V. as Secretary, and Mrs. Soumya Hegde as Joint Secretary.

The PTA's Executive Members include five nominated parent members, namely Mr. P. Mohan, Mr. U Prakash Shenoy, Mr. Nagaraj Kamath, Mrs. Laxmi Gurudath Pai, and Mrs. Aruna Nayak. These members will actively participate in the association's various activities and work together to provide better opportunities for students.

The PTA's formation is a significant step towards creating a healthy and interactive environment for the students and the institution. The PTA's efforts will strengthen the bond between the parents and the institution, and help in the overall growth of the students.

### **Canara College Alumni**

Canara College takes pride in announcing the registration of its Alumni Association and the association has been actively involved in promoting the growth and development of the college, and several of its alumni are doing exceptional work in their respective fields. The association meets regularly to discuss and implement various initiatives to enhance the organization's reach and efficacy.

The association has a dedicated set of office bearers who will serve for the year 2022-2023. Mr. Praveen Prabhu is the President of the Association, with Mrs. Kalavathi as Vice President, Mr. Kiran Rao as Secretary, and Mr. Vaikunta Shenoy M as Treasurer. Mr. Raghavendra Shet is the Joint Secretary of the association.

### **Students' Council**

On December 05, 2022, the Students' Council of Canara College held a grand ceremony to nominate the new student representatives and administer the oath-taking ceremony. The SWOs, Mrs. Sushma R. Shetty and Ms. Mashushree, who played a vital role in making the event a grand success. Led by the dynamic President, Mr. Abhin Bangera, along with his dedicated team of student office bearers, including Vice-Presidents Ms. Sanjana Sanjay and Ms. Sheethal Pai, Secretary Mr. Bantwal Amogh Baliga, and Joint Secretary Mr. Harshith. The Students' Council has been working tirelessly to represent the student community's interests.

## Placement Record

Canara College, in association with the District Employment Exchange Centre, D.K. Mangalore, and the Department of Skill Development under the aegis of NCSP, coordinated a Mega Job Fair on 31 January, 2023, right on the college campus. This fair served as a prime platform for entry-level job recruitment, empowering job seekers to gain insight into the same. Esteemed organizations such as Winman, Reliance Jio Telecom, Bharath Auto Cars Pvt. Ltd., Flipkart, Toyota Motors, Wistron, Honda Matrix, Supreme Bajaj, Muthoot Finance, Muthoot Fincorp Ltd., Expert Group of Institutions, and many more were invited to partake in the fair. Candidates with diverse qualifications such as S.S.L.C, PUC, Diploma, ITI Certificates, graduates, and postgraduates were welcomed to attend the event. More than 1000 candidates graced the occasion, out of which 100 meritorious individuals were chosen by various companies during the selection process. This event was an enormous accomplishment for Canara College, commemorating its Golden Jubilee year.

He also attended a four-Day Research Methodology workshop organized by M V Mandal's college Mumbai in association with ICSSR.

## **STUDENTS' ACHIEVEMENTS**

### **Achievements in NSS**

Sharan Raj, a student of II B Com C, participated in the State Level Pre RD-Selection Camp 2022-23 held at SDM College of Ayurveda and Hospital, Hassan, from October 17 to 20, 2022.

Abhin Bangera, a student of II B Com D, represented Karnataka in the “Bhai Ji National Integration and Sadbhawana Youth Camp” organised by National Youth Project from October 26 to November 1, 2022, at Durgapura, Jaipur. This was a great platform for him to meet like-minded individuals from all over India and learn about various cultures and traditions.

Sharan Raj and Prajwal of II B Com C participated as delegates in the National Youth Conference-2022 and contributed solutions during the Hackathon on SDGs held on December 10 and 11, 2022, at Loyola Hall, Mangalore, Karnataka.

The College NSS Team also bagged the Overall Runners-up trophy in the National level intercollegiate competition Eunoia organised by St. Aloysius College, Mangaluru, on January 24, 2023. They won the first place in Street Play and Second Place in Variety Competition.

### **Achievements in Sports and Games**

We are proud to announce the achievements of our college students who have been selected to represent Mangalore University in various sports at the South Zone Inter University and All India Inter University tournaments.

Ms. Nikitha M. Kamath of I B Com represented the Mangalore University Chess team at the South Zone Inter University Chess.

Ms. Spandana Bekal of III BSc and Ms. Sanjana Sanjay of III BBA represented the Mangalore University Badminton team at the South Zone Inter University Badminton Tournament.

Ms. Pratheeksha U. Anchan of III BCom showcased her exceptional talent in karate at the All India Inter University Karate Tournament and helped the team achieve success.

Ms. Rachana R. Rao of I BCom represented the Mangalore University Swimming team at the All India Inter University Swimming Competition, giving an impressive performance that brought pride to the college.

In addition to these achievements, Prathiksha U. Anchan participated in the Mangalore University Inter-Collegiate Karate Championship and secured First Place in the competition, along with Jeevitha D and Lasya J Shetty who also participated and secured First Place. Anupama, a student of III BCom, participated in the 5th National Level Open Invitational Karate Championship-2022 and secured First Place in Kumite and Kata Event.

### **Achievements in Fine Arts**

Canara College students have been making their mark in various intercollegiate and national level competitions. In the Intercollegiate Eastern group singing competition organized by St. Aloysius College (Autonomous), the students won a consolation prize with a cash amount of Rs 5,555. They also won the Runners up position in Group Dance Competition in “AEROPHILIA,” a national-level fest organized by Sahyadri College of Engineering & Management.

In other competitions, Dhara and Adith Rai won the Second Prize in “Art Squad” Face painting Competition organized by School of Social Work Roshini Nilaya, Mangaluru. Deepak won the Second Prize in Guitar Competition and Sheetal Pai won the Second Prize in Harmonium Competition organized by Yuvaka Mandala, Delanthabettu, Shibaroor.

The students of Canara College also won the Second Prize with a cash amount of Rs 1,500 in the University Level Intercollegiate Folk dance competition organized by St. Aloysius College (Autonomous). They won the First place in Dasara Geethe Competition in college level organized

by Mallika Kalavrinda Mangaluru and the Second Prize in Fashion Show competition in “conscendo,” a Nationwide intercollegiate cultural fest organized by Manipal Academy of Higher Education, Manipal.

Giridhar Mallaya and Shwethe Kamath won the Second place in Singing Competition in Akrithi fest organized by Canara Engineering College Benjanpadavu.

The College Yakshagana team exhibited their artistry in two noteworthy competitions. The first one was organized by SDM Law College, Mangalore on March 10, 2023, and the second by Govinda Dasa College, Surathkal on April 10, 2023. The team's impeccable performance was lauded by the audience, and Swarnashree, who played a pivotal role in the Yakshagana, earned a well-deserved consolation prize. We congratulate all the selected students and wish them the very best for their future endeavors. We also express our gratitude to the coaches and staff who have worked tirelessly to train and guide our students. Overall, the students who participated in various events have made the college proud with their exceptional performances and achievements. It shows that the college is not just excelling in academics but also in sports, cultural events, and social activities, producing well-rounded individuals.

#### **ANNUAL MEGA EVENTS**

The two-day national level inter-collegiate fest, CANFEST-23, was successfully organized by Canara College on April 11th and 12th, 2023. The event was inaugurated by CA Kedarnath Shenoy A., Partner Manohar Choudhary Associates, Faculty and Author, while the Valedictory function was graced by CA Sriram V. Rao, Partner, Nitin J. Shetty & Co., Mangaluru and Bengaluru. A total of 47 colleges participated in the event. A. J. Institute of Commerce and Management emerged as the Overall Championship winners, with St. Agnes College(Autonomous), Mangaluru and Poorna Prajna College, Udupi, being the Runners-up and Overall Championship trophy of Scientica winners, respectively. The Kemmet Overall winner was SDM College of Business Management, Mangaluru, while Trisha College of Commerce and Management, Mangaluru, was the Runners-up. The events of Omniscient were won by A J Institute of Commerce and Management, who also received the overall championship trophy. The Staff and Student Conveners were complimented for flawlessly organizing the event.

N.S.S volunteers organized a University level NSS fest “SRUJANA” on April 17, 2023.

The Annual sports meet was organized on April 08, 2023 at Mangala Stadium.

#### **COLLEGE DAY AND UNION DAY 2022-23**

I express my heartfelt gratitude to Sri D Vasudev Kamath, President of CHS Association, Mangaluru, for graciously

accepting our invitation to be the chief guest. I also extend my sincere thanks to Smt. D Vaishnavi Kamath for kindly agreeing to grace the occasion and present the awards. Their presence and support added immense value to the event, and we are truly grateful for their generosity.

I would like to express my sincere gratitude to Dr. Rashmi K, Assistant Professor and Coordinator of the Department of Post Graduate Studies in Applied Zoology at Alva's College, Moodabidri, for graciously accepting our invitation to be the chief guest for our Union Day Celebration held in the morning.

With utmost gratitude, I would like to express my sincere appreciation to Sri M Padmanabha Pai, Vice President, Sri. M. Ranganath Bhat, Honorary Secretary of CHS Association, CA M Jagannath Kamath, Correspondent of our College, and Sri K Shivanand Shenoy, Manager, along with other members of the Governing Council for their invaluable guidance and steadfast support.

I am deeply grateful to the IQAC coordinators, NAAC Criterion Heads, faculty members, alumni, parents, and all who contributed to achieving NAAC 'A' Grade with a remarkable 3.21 CGPA, elevating our institution to new heights. As we celebrate our Golden Jubilee, we acknowledge the challenges and opportunities ahead. We aim to stay relevant in a changing world, equip students for the future of work, and expand our reach through technology and entrepreneurial partnerships. Our commitment to academic excellence, personal growth, and societal impact remains steadfast as we overcome challenges and seize opportunities. With our collective efforts, I am confident that we will continue to progress and serve society in a more meaningful and positive way. I appreciate the valuable suggestions from parents and alumni and look forward to your continued support. My sincere appreciation to our guests on and off the dais. To our students, I wish you a promising future. Lastly, I thank our teachers and administrative staff for their dogged devotion and attentiveness, making this a rewarding year for our institution. I thank the Almighty and the eternal fortitude of our founder Sri Ammembal Subba Rao Pai for sustaining and guiding this institution.

Thank you.

## Value of Time

Time is the most important factor for the progress of human beings, time is running continuously. Time once gone is gone forever. It never comes back. Time gives equal opportunity to all. It doesn't say the poor or rich, young or old, healthy or sick. It is equally important to all. Time and tide waits for no man. Time is precious. We can buy everything with our money but time can't be bought.

Time can be divided into present, past and future. Past is past. It has already gone. We should learn from past experience. Present is important for us. If we utilize the present time properly, our future automatically becomes bright. So, we should not waste our present time.

We should not waste our time by doing unnecessary things like playing cards, gossiping about other people, watching films etc. We should utilize our time doing creative works like reading good books, helping our family members, working hard etc.

We have to use our time wisely. Loss of time leads us to failure and grief. Some people are foolish, they don't realise the importance of time. They are wasting their valuable time. Waste of time is a great loss. We should not be idle, we should be active. Time is more important for students they should utilize their time properly. Our life is very short. We have to do a lot of things in a limited span of time. So, we must utilize our time properly.

## Save Earth

We do not have any other known planet beside earth in this universe where life is possible. It is only known planet where the combination of most essential natural resources oxygen, water and gravity is found which makes the possibility of successful life here. We don't have time to think more about it and start saving earth seriously by following various effective measures in order to handover a healthy earth to our future generations. People should plant more trees to get sufficient oxygen and curb the effect of air pollution and global warming.

We should stop cutting down rain- forest to our life, atmosphere and homes of many different species. People should limit their use of electricity and use less fossil fuel to save the environment from global warming. They should promote the use of solar lights and wind energy to save destroying earth. Following the 3R rule (Reduce, Reuse, Recycle) can be provided very effective in saving our precious earth.

## Bioluminescence

Bioluminescence is when living things create and release light. Way back before safety lamps were invented for coal mines, dried fish skins were used in Britain and Europe to give off a bit of light. This helped miners see without using candles that could cause explosions in the mines.

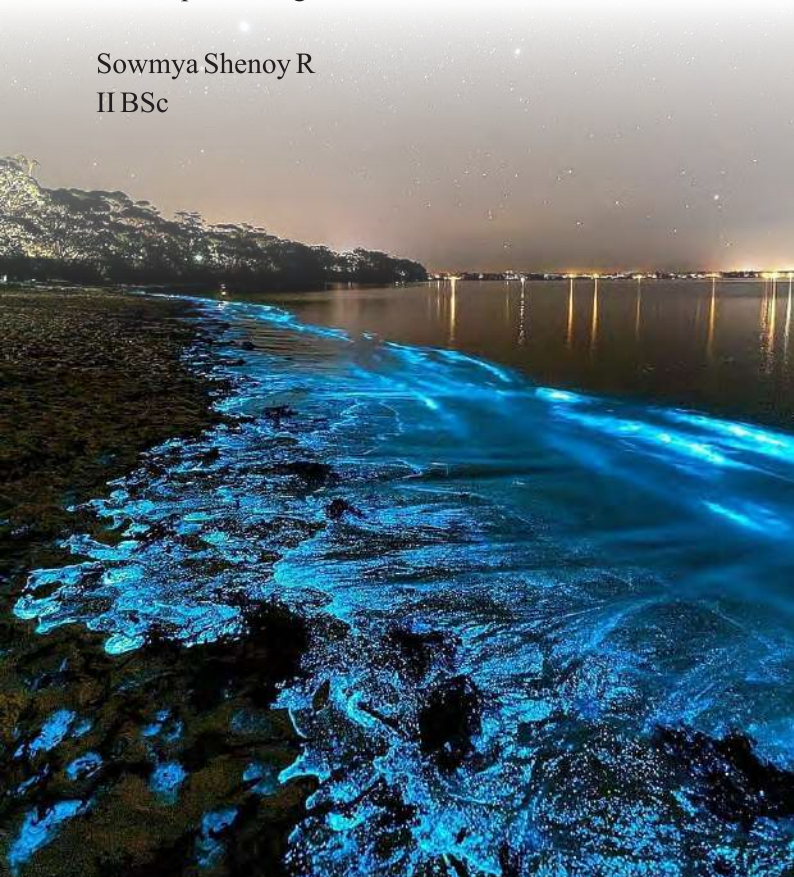

Another safe way to see in mines was using bottles that had fireflies inside them. In 1920, an American scientist named E. Newton Harvey wrote a book called 'The Nature of Animal Light' where he talked about bioluminescence and all the research about it at that time.

This kind of light comes from a chemical reaction, and it happens in lots of sea creatures, some fungi, tiny organisms like bacteria (some of which glow), and even insects like fireflies. Sometimes, the light comes from bacteria that live with the animal, and other times, the animal makes the light itself.

The most well-known example of bioluminescence is the firefly, called *Photinus pyralis*. Usually, this light-making process involves two main things: a special molecule that emits light called luciferin, and an enzyme called luciferase. These two things work together, with the enzyme helping to make the luciferin glow.

Scientists are looking into using bioluminescence for things like streetlights and decorations. They have even made a plant that glows with bioluminescence!

## Life Away from Home

After my 12th-grade results came in, I made a big choice: I wanted to continue my studies in a different place. I did a number of research and talked to lots of people, and finally, I settled on moving to Mangalore and joining Canara College.

Leaving home for a while can totally change your life—it is a mix of excitement and challenges. Whether it is for work, studies, or just seeking adventure, being away from home can really shape who you are and teach you a lot.

The best part about living away from home is feeling independent. You oversee making decisions and taking care of yourself. This kind of experience also helps you learn essential life skills like managing money, handling time, and solving problems.

Living away from home lets you meet new people and get exposed to different cultures. You will learn so much from the varied viewpoints and ways of life you will come across. But sometimes, it is tough because you might miss home quite a bit.

## My Mother

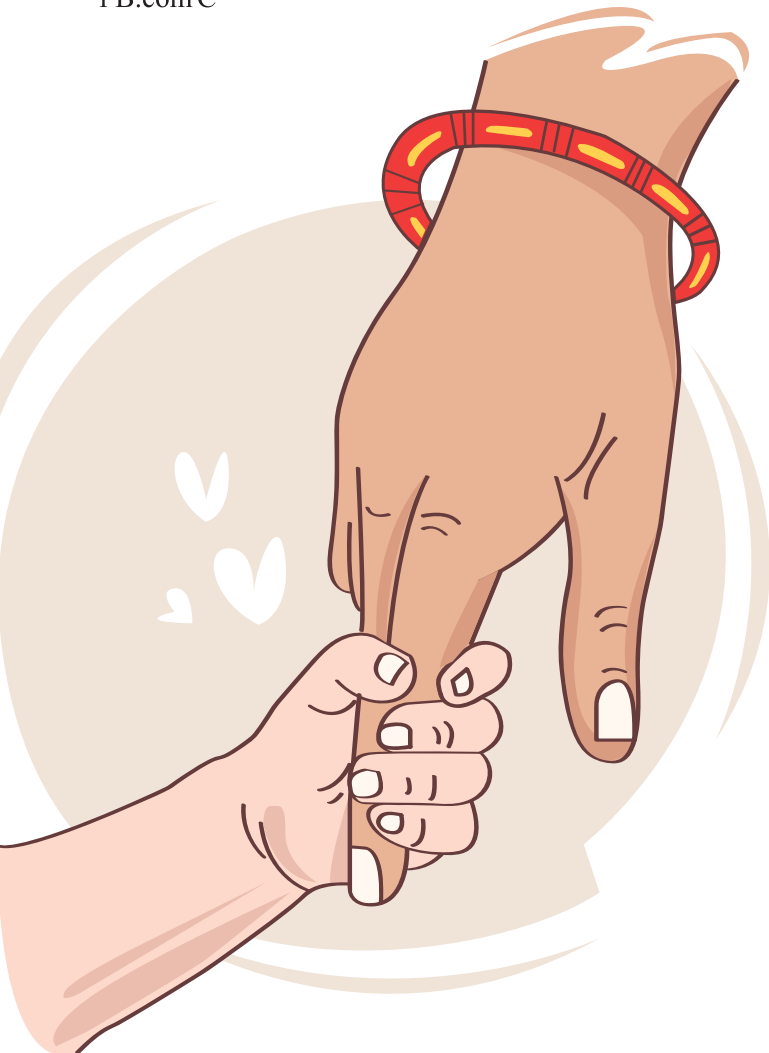

A mother is someone who carried us for nine whole months in her belly, facing all kinds of challenges and giving up things she wanted or places she could not go. She is not just a teacher; she is a fantastic friend and sometimes, a strict parent. Plus, she takes care of the whole family's needs.

If there is anyone who loves us more than our mother, it is almost like a superpower. It is not just my mom but all moms who put their families first and deserve a lot of love and respect. They might seem like ordinary people, but they are truly champions.

At every step in my life, my mom has been my support. Day or night, she has been there for me, no matter what. And everything she does, her determination, dedication, and how she carries herself—it all inspires me.

So, to my mom and to all moms out there, a big thank you and lots of love. You are amazing!

## Pollution Due to Urbanization

Urbanization is often seen as a good thing, and in many ways, it truly is. It helps develop remote areas and builds a lot of important things like schools, hospitals, and roads. This creates chances for education and jobs, making life better for many people. But we have got to be aware of its downside, especially how it causes pollution. Learning about pollution due to urbanization can help us understand this better.

Kids already know about air, water, and land pollution. It is time we teach them how urbanization adds to this and hurts the environment. While building schools, hospitals, factories, and roads are good parts of urbanization, they also increase the chances of polluting the air, water, and land.

As cities grow because of urbanization, more factories and industries pop up, and there are more vehicles on the roads. The stuff that comes out of these factories and vehicles messes up the air we breathe. It becomes bad with all the harmful gases and smoke. Also, trash from homes and industries ends up in water bodies, making them unsafe for drinking or using.

When cities expand through urbanization by setting up factories and building roads, pollution happens in many ways: through the air we breathe, the water we use, the soil, the land, and even the noise around us.

## My School Life

Back in school, I got really into playing games, acting in dramas, and debating—basically, all the fun stuff outside regular classes. I was pretty good at sports and managed to be at the top achievers of my class. Being good at both academics and activities won me a lot of love and respect from my teachers and friends. My teachers were a big support, cheering me on and helping whenever they could. Because of that, I ended up being in everyone's good books, including the principals.

I snagged quite a few medals, trophies, and certificates for doing well in exams, sports, and debates. But whenever I faced setbacks, I never let it get me down. To me, failures are just steps towards success.

My school days were fantastic—a valuable experience and the best teacher I could have asked for. I'll always look back on those days with a lot of fondness.

## Save Trees Save Earth

Trees are super important for a healthy environment. To live well and sustainably, we need a healthy environment. Hurting trees means hurting the Earth directly. Trees do amazing things like reducing pollution and giving us clean air. They even help control how hot the environment gets.

We are in a time where technology makes everything easy, but this comfortable life has a downside—it harms nature. Back then, people did not have big industries, but they had trees and fresh air. Now, we have got all these fancy things, but it comes at the cost of losing trees and clean air. Trees give us oxygen, which is super important for humans to survive on Earth. They also help with things like climate change, rainfall, and stopping soil from washing away.

But here is the catch—cities do not have as many trees and green spaces as the countryside does. That is why people in the countryside seem healthier and live longer. Cities, without enough greenery, make people more likely to get sick.

So, if we want to stay healthy, planting more trees is the way to go. They are like nature's way of giving us a healthy life.

## I am Too ill

One morning, I woke up feeling sick. My head hurt, my nose was runny, and I had a high fever. I did not tell anyone about it because there were a lot of cases of a serious illness called dengue going around at that time. This happened when I was in the 10th grade. I really did not want to go to school, but I did not want to worry my mom or dad by telling them about my fever.

However, they found out anyway. Mom told me to rest and drink some water. At 10 o'clock, we went to our local doctor, and I ended up taking a day off from school. The doctor gave me some medicine, and I spent the whole day resting. But it was tough because the fever made it hard to sleep or eat. The next day, my fever was still there, so I stayed home from school again.

That second day, I made a big mistake that I will never forget. I was supposed to take my pills in the afternoon, but instead of having lunch, I ate some 'Lays' chips and took the pills. At first, everything seemed okay, but in the evening, my stomach started hurting. I ignored it and tried to rest, but suddenly, I passed out and lost consciousness. Everyone got worried and tried to wake me up. I could not open my eyes and started throwing up. Eventually, I felt better and had dinner before going to sleep.

The next day, we went back to the doctor, and they explained that I should never take those pills with junk food. The day after that, I went back to school. That was a tough time when I was very sick.

## Hulivesha

Tiger dance is a special folk dance in Dakshina Kannada that captivates both young and old. It's performed during Dassara celebrations because the tiger is believed to be the goddess Sharada's favourite carrier. This dance is also seen in festivals like Krishna Janmashtami.

More than 50 groups perform this famous dance. Before the Hulivesha performance, there is a painting session where artists carefully apply layers of paint on their bodies. They usually use yellow and black colours, sometimes

adding touches of red near the mouth. The dance is accompanied by drums whose beats can be heard from far away. Almost every child in Kudla knows how to mimic the popular drum rhythm.

During the dance, the artists portray heroic acts that showcase the strength of the tiger. Groups can range from 7 to 15 members, but some are much larger. The formal dance begins with a Ganesh pooja after the Navarathri festival. Throughout the Dasara procession, the tiger dance holds a significant place.

## For a Healthy Mind

Being mentally healthy means feeling good about yourself and being able to handle life's ups and downs. It is when you can do your best, deal with everyday challenges, work well, and help others too. The World Health Organization (WHO) says being healthy is not just about not being sick—it is also feeling good physically, mentally, and socially.

It is important to spot any mental health issues early. Mental health starts developing even before we are born. But sometimes, we only notice problems when someone acts in a way that seems different from what is expected for their age. For example, when a kid acts out or does poorly in school, we might blame their parents. And if someone struggles as an adult, it could be because they did not get the right guidance growing up. Sometimes, these struggles can cause problems in families and make people feel insecure as they get older.

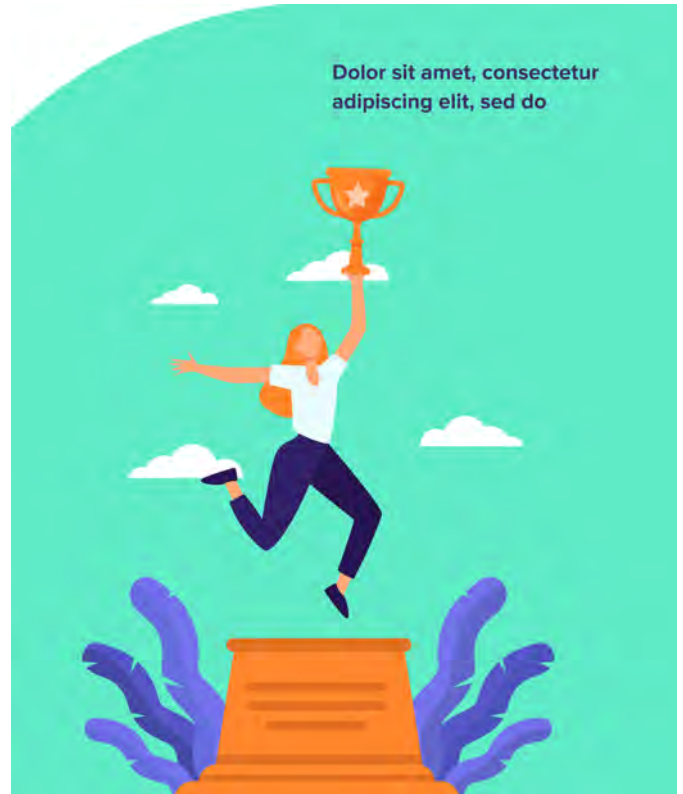

Being aware of your thoughts and feelings is key to taking care of your emotions. Mindfulness is all about being in the moment, knowing what is happening around you, and not letting things overwhelm you. If someone often has negative thoughts, especially after tough times like failing, losing someone, or facing money problems, it is a good idea for them to talk to a professional who can help.

## Success in Life

Success does not happen overnight. It is something you can achieve if you work hard and stay dedicated. Remember, success is not just about big things like money, fame, or power. True success is about feeling happy with what you have accomplished.

Think of success as a journey, not just a destination. The important part is not just reaching your goal but also the lessons you learn along the way. Making money is not the only definition of success. While money can be a part of it, success comes in many forms that are not tied to wealth or things you own.

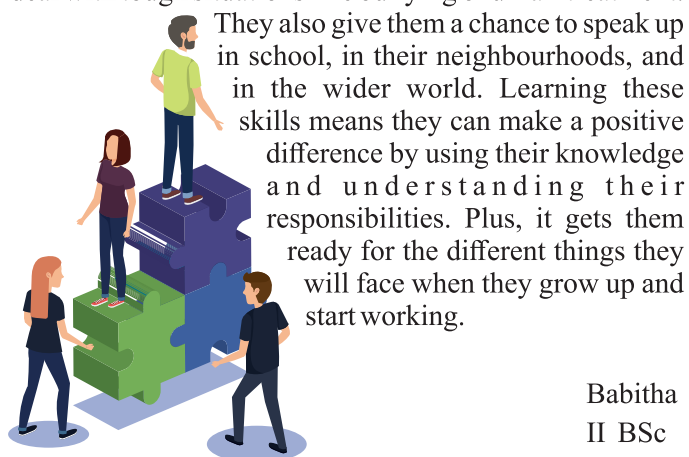

Success is a mix of different things like putting in effort and sometimes getting lucky breaks. There is no definite way to guarantee success in life, but there are things you can do to boost your chances of reaching your goals. Just keep at it, work hard, and stay positive!

## Life Skills

Life skills are those important abilities we learn through experience and education that help us handle everyday challenges. These skills, like being creative, thinking carefully, solving problems, making good choices, and working well with others, are super important in the 21st century. They are not just crucial for individuals to succeed in their jobs but also for making our communities better and healthier.

These skills help people feel good about themselves and deal with tough situations like bullying or unfair treatment.

They also give them a chance to speak up in school, in their neighbourhoods, and in the wider world. Learning these skills means they can make a positive difference by using their knowledge and understanding their responsibilities. Plus, it gets them ready for the different things they will face when they grow up and start working.

## Embracing Computer Studies

In today's world, things change rapidly, especially with everything happening online. That is why having some basic computer knowledge is important. Honestly, when I first chose computer studies for my classes, I was not all that into it. I did not know much about computers, and I did not find them very interesting. But as time went on, I got hooked, just like how I get into gossip with my best friend!

Computers have changed our lives in so many ways. They help us keep things safe, send messages, process data, write software, and do all sorts of calculations. It is incredible how machines, from the very first ones to supercomputers, have evolved over time. They are a symbol of how smart humans can be. That is why computers are one of the coolest things people have invented. There is a lot of opportunity in the world of IT and Computer Science. Students studying this have a bright future ahead with so much to explore and discover. And you know, sometimes I really relate to this saying: "computers are Old Testament gods; lots of rules and no mercy." They can be strict with their rules, no kidding!

## Online Education

Education matters a lot in everyone's life. These days, online learning is becoming more and more popular. The internet is the main tool for online education. Over the years, it is gained a lot of attention because the internet makes things super easy. It keeps us connected and offers endless resources through the World Wide Web. Especially during the COVID-19 lockdown in 2020 and 2021, online

studying became a big trend.

Online education lets us learn from different teachers in different places. It helps students feel less anxious because they can often communicate better compared to regular classes. But it does create some distance between you, your teachers, and classmates. Another thing is, it is easier to cheat in online exams compared to in-person ones. Plus, spending a lot of time near a screen, like a laptop, can cause eye problems. So, online learning has its pros and cons. How we use it is important.

The good thing is, online education is not expensive—it is affordable for most people. But having both online and offline learning is important for students to grow fully.

## Home Sweet Home

Home is that special place where you grow up, filled with memories of your childhood—your favourite toys, yummy dishes, and family traditions. Sometimes, even international students find themselves daydreaming about being back home in the middle of the school day. Home is like a symbol of comfort and feeling good.

In simple words, a home is where you find physical, emotional, and social satisfaction. It's super important in people's lives. There are many dictionary meanings of home, but to me, it's a wonderful place to have when we need shelter from nature or just a comforting place like a mother's embrace. Home is what society makes it, and it's always there for us.

## My Experience in Fest

My life has been a mix of incredible highs and tough lows. But during challenges and personal growth, one thing stands out—it was not a single moment, it was a journey. Every day, I reflect on my past, thinking about how those experiences shaped me into who I am today. I did not realize back then how much those moments would impact me now, becoming valuable lessons.

One of the keys turning points was the first college fest I attended as a first-year student. It was a pivotal moment that I deeply appreciate. It helped me develop my communication skills and gave me the confidence to interact with people. That experience encouraged me to take part in many more fests. Each event taught me something new—how to handle case studies, persuade people to buy a product, launch one, and even the importance of taglines and logos.

## Invention of Papers

Papers have been the go-to for writing, art, and packaging for ages. Before papers came along, people worldwide used various surfaces for writing. Chinese inscriptions were carved on bones, Mediterranean folks preferred clay pots, and ancient Athenians wrote on broken pottery. Egyptians used papyrus, which gave us the word 'paper,' and in India, birch bark and treated palm leaves were popular.

While those traditional surfaces were available, they were messy and not easy to access. The credit for inventing paper goes to Cai Lun, an official in China's Han dynasty. He changed the game by creating a method using rags and plant fibres in 105 A.D. Writers loved it—it was simple to make and carry.

By the 12th century, the paper-making technique spread globally, leading to more uses beyond writing. It was used for wrapping, making tea bags, printing money, and even as toilet paper. When the printing press came along, the demand soared. Handmade paper could not keep up, so water-powered mills came in, boosting production. But making paper was expensive because it used materials like hemp, linen, and cotton. German scientists Friedrich Kellner and Charles Fenerty solved this by using wood pulp in 1844, starting a new era in paper-making.

In the 20th century, paper industries grew with faster production and better quality. Today, paper is one of the cheapest things around. With the push for sustainability, there's a rising demand for tree-free papers. People are reusing and recycling paper more, and digital papers are gaining popularity. Even with all the changes in paper-making over time, its invention totally changed how we communicate. It has had a huge impact on human history and literature.

## True Beauty

Real beauty is found within a person. Judging someone solely on their appearance is not the way to go. You know that saying, "Don't judge a book by its cover"? Well, it is the same with real beauty.

Everyone sees beauty differently. Some think it is in someone's face or figure—basically, their outside looks. But the true beauty is in things like kindness, generosity,

selflessness, and positivity. Judging someone based on how they look outside is not fair, because even someone who seems "beautiful" on the outside might not be so nice inside. Outer beauty is like a mask, hiding who we truly are.

Beauty is different for everyone, just like how people see things in their own way. Natural beauty is something that just happens, no changes needed. You can't borrow inner or outer beauty from someone else—it's a gift from nature or whatever higher power you believe in. While makeup can change how someone looks on the outside, inner beauty comes from having good thoughts and feelings. Being kind and spreading goodness is what really makes someone beautiful inside.

Try to be good, kind, honest, and clear every day. Look around, and you will find plenty of wonderful and generous people who are beautiful from the inside out.

## The Life of a Soldier

A soldier is someone who keeps their country safe from enemies. They are brave enough to face danger and fight through tough situations. Loving their country deeply, they are always prepared to give up their life when needed.

In India, a soldier is called a 'Jawan' and they are the backbone of the army. Their life is tough and demanding. Soldiers are tough, fit, and full of energy. They can be part

of the army, navy, or air force and go through intense training to become skilled at their job. They are ready to handle any situation that comes their way while defending the country.

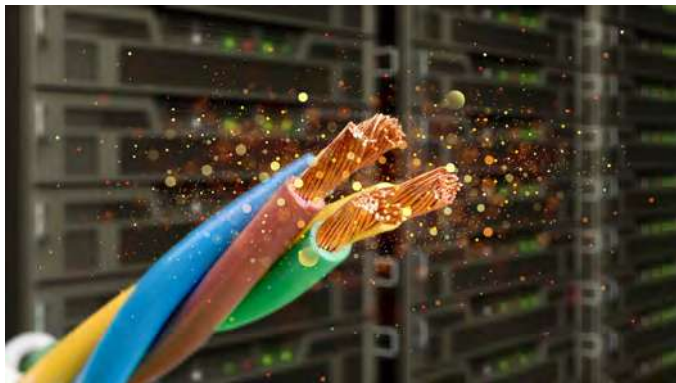

A soldier's main goal is to protect the country from enemies, both within and outside. They are trained to use various weapons, handle aircraft, scale mountains, and even swim in deep seas. They are prepared to serve in the hardest conditions and often have long duty hours. Living far from their families, they might only get to see them once or twice a year. But their dedication and sacrifices make history, and history remembers them forever.

## Father of Fiber Optics

The 21st century is known as the information age or digital era because of the widespread use of the internet. The internet has become incredibly important in everyone's life. It is hard to imagine doing even half of our work without it. And it's all thanks to one man's determination to 'bend the light'—Narendra Singh Kapany, often called the father of fibre optics.

Kapany, an Indian physicist, faced ridicule from a teacher when he asked why light always travels in a straight line. That moment pushed him to swear to himself that he would 'bend the light.' He served in India's ordnance factories before studying at Imperial College in London. There, he teamed up with Harold Hopkins and they worked on transmitting images through fibres. In 1953, their technique greatly improved image quality through optical fibres, which Kapany named 'fibre optics.'

But credit disputes arose between Kapany and Hopkins over the invention. Then came Charles Kuen Kao, who took ideas from Kapany's work, tweaked them, and made significant strides in optical fibres. Kao even won the Nobel Prize and earned the title 'Father of Fiber Optics,' swiping credit from both Kapany and Hopkins.

In the end, these three scientists played crucial roles in developing today's optical fibres—a significant advancement for humankind.

## My School Life

School life is the best time of our life as we make new friends, learn new things, and build our careers there. School time is the only time which we enjoy most, and when we enter college, we always miss our school life. School life teaches us lots of new things and prepares us to face all the challenges of life. I love my school life and really enjoyed it. I have lots of friends and my teachers. I love my school and enjoy going there every year to meet my teachers.

My school has a big library where we all read different kinds of books, novels, and comics. Apart from the library, my school has well-equipped scientific labs where we all practise various experiments of chemistry, physics, and biology. I have learned a lot of things in these labs. My school also has a big computer lab with trained technical staff that help us to learn everything about computers. I have playing and learning new things in the lab. In the computer lab, the students learn about using MS Word, C++ program and power point etc. all the staff at my school are very polite, educated, and experienced. Our teachers not only teach us but also prepare us for various competitions etc.

I love my school and my school life. Every day we used to learn new things and enjoy it with our friends. My school life has taught me many things and given me some best gang and best friend who will be with me forever. We all get different experiences which the students get in the school life helps them to become better human being. When we leave schools, we are not just taking the memories with us, but we take many friends, career, and good manner for life. It is the first place where we come out of our family circles and create a new one with our teachers and friends.

I cherish my school life.

## Badminton

Badminton is a racquet sport where players use racquets to hit a shuttlecock over a net. You can play with larger teams, but most often it is either “singles” (one player per side) or “doubles” (two players per side).

People enjoy playing badminton casually outdoors in places like yards or beaches, but formal games happen on rectangular indoor courts. Players score points by hitting the shuttlecock with their racquet and landing it in the other team’s half of the court.

You can only hit the shuttlecock once before it goes over the net. The game stops if the shuttlecock touches the ground or if there is a fault called by the umpire, service judge, or the other team.

The shuttlecock is different from balls used in other sports. It is feathered or made of plastic, and the feathers make it slow down faster when hit. It flies in a unique way, which makes badminton special.

The game evolved from an earlier one called battledore and shuttlecock in British India. Europe was big on badminton, especially Denmark, but it is super popular in Asia, especially in China. Badminton made its debut in the Summer Olympics in 1992, featuring men’s and women’s singles, men’s and women’s doubles, and mixed doubles.

Playing badminton at a high-level needs top fitness: players need stamina, agility, strength, speed, and precision. It is a technical sport too, needing good coordination and skilled racquet moves.

## Alcohol and Drug Abuse

The use and misuse of drugs and alcohol among teens is common and can lead to serious problems. In the age group of 15 to 24, about half of the deaths involve alcohol or drug abuse. They can also lead to physical and sexual aggression, like assaults or even rape. Teens might have various experiences with alcohol and drugs, from trying it out to using it regularly, misusing, and getting dependent. When used often just for fun, it can cause anxiety and depression. Some teens might use them to cope with feeling down or not having good social skills.

Tobacco and alcohol use by teens should not be taken lightly because they can lead to trying out other drugs. It is tough for teens to say no because they are curious, take risks, and feel pressured. They might wonder, "What's the harm in trying just one?"

If a teen has a family history of alcohol or drug problems and lacks good social skills, they might quickly move from trying it to serious misuse. Even for some teens without family history, trying just one could be risky. Teens with a family history of alcohol or drug issues are advised to avoid trying them out. One thing is certain: someone who does not try drugs will not get hooked.

There are signs to watch out for if someone might be misusing alcohol or drugs, like grades dropping, changes in friend groups, bad behaviour, and problems at home. Physical signs like red eyes, coughing a lot, and changes in eating or sleeping habits can also show there might be an issue. Dependency on alcohol or drugs might lead to blackouts, feeling bad when not using them, and problems at home, school, or work.

## Digital transformation

Society has rapidly changed due to digitalization and technology, impacting various parts of life, both positively and negatively. From workspaces to music, everything has felt this change. Transport, travel, and communication systems have become more efficient because of digitalization. Nearly every machine, big or small, now uses digital technology in some way. Over the last two centuries, there have been four major industrial revolutions, and the current one is connected to the digital changes happening in society.

Digital technology has its advantages. Devices have become smaller, lighter, and more versatile, allowing easy storage and transfer of a huge amount of information like audio, video, images, and documents. Innovations like UPI have made banking more accessible and secure. The Indian government's "Digital India Project" supported such innovations, aiming for a digitally empowered country through projects like smart cities, Bharat Net, and collaborations with companies like Facebook and Google.

However, along with these advantages, digitalization brings negative effects too. Storing personal or confidential data digitally poses risks of data breaches and cyber threats. Privacy concerns and the misuse of images are also issues. The transformation has affected job opportunities as machines, AI, and automation replace human labour, creating a preference for machines over humans.

Debating whether digital transformation is a blessing or a curse could go on forever. The goal of digital initiatives like Digital India is for the benefit of everyone. Despite the challenges, digital changes also create job opportunities, emphasizing the need for continuous learning. It is crucial to adapt to changes brought by digitalization, addressing issues like social disconnect and addiction by learning to balance the virtual world with the real one. When skilled workers and digital advancements complement each other, progress can be achieved.

## Aurora

Polar lights, also known as Aurora Borealis in the north and Aurora Australis in the south, are amazing natural occurrences seen in both the northern and southern parts of the world. They are a magnificent sight.

These lights start from the sun's surface when solar activity releases a cloud of gas, scientists call it a coronal mass ejection. When this reaches Earth after a few days, it crashes into our magnetic field. You cannot see this magnetic field, but if you could, it would make Earth look like a comet with a long magnetic 'tail' stretching millions of miles behind us, away from the sun. When this collision happens, it stirs up changes in the magnetic tail. These changes create streams of charged particles that flow along magnetic lines into the Polar Regions. When these particles bump into oxygen and nitrogen atoms, they create dazzling auroras. Though more common in places closer to the poles like Alaska, Canada, and Antarctica, sometimes they are spotted nearer the equator. The colours and shapes come from different ions and atoms getting energized as they meet the atmosphere and react to the magnetic lines. Auroras can take various forms, from rippling curtains to pulsating blobs or steady glows, and the altitude affects their colours.

As beautiful as they are, the invisible movements of particles and magnetism during auroras can harm our electrical power systems and satellites in space. That is why scientists are eager to understand aurora physics and solar storms better—to predict when our technology might get affected.

## ‘Pen’ Drive

Plastic was a wonderful invention, but when it became widely used for single-use items, it created a big problem for our planet. This affects all of us.

Plastic is handy and cheap, but it is made from petroleum, which is not a renewable resource. Those one-time-use plastic pens are everywhere: in cars, bags, and they are given out at airlines, schools, and more. But here is the issue—these pens are tough to recycle, and only a few places can do it.

These pens have parts made of different stuff. The outside part is often made from a toxic plastic called polystyrene, which comes from a harmful chemical called styrene. It is seriously bad for the health of workers making these pens. The caps might be made of a safer and recyclable plastic called polypropylene, but they are so small that they might mess up regular recycling machines.

Back in 1986, a report found that making polystyrene was one of the top sources of dangerous waste. Some companies, like Perracycle in the US, gather used pens, markers, and other plastic stuff to recycle. They are trying to swap out these throwaway plastic things for more durable ones that can be refilled.

An artist named Lakshmi Menon from Kerala is fighting for India's future with her 'Pen Drive' campaign. She is pushing to ditch ball pens made of plastic, which are as bad as plastic bags and bottles. The idea is to switch to using ink pens and reusable ones instead. This campaign aims to tackle the throwaway culture and plastic pollution. Did you know, students in Kerala alone chuck out more than one and a half crore pens in just a month? This campaign wants to change that. They have already collected about 7 lakh plastic pens, reducing the load on landfills and rivers. With support from the State Government, this campaign is getting attention from schools, colleges, and people everywhere.

## Chat GPT

ChatGPT is an AI chatbot made by OpenAI. It is a smart computer program designed to talk like a human and interact in conversations. Mostly, it is used for customer service, but people also use it for lots of other things. You can ask it to write essays, make business plans, or even create computer code.

It came out in November 2022 and is built on top of two big groups of language models from OpenAI called GPT-3.5 and GPT-4. They have trained it using different ways to learn from both teaching and practicing. Even though its main job is to chat like a person, ChatGPT can do lots more! It can write and fix computer programs, make music, stories, and essays, and even answer some test questions (sometimes it is even better than an average person). It can also do cool stuff like pretending to be a computer system, play games, or act like an ATM.

To learn, ChatGPT used things like manuals and info about the internet and programming. But it is not perfect. Sometimes, it might give answers that sound good but are wrong or do not make sense. OpenAI knows this and says so too!

# The Contradictions That Drive Toyota's Success- Hirotaka Takeuchi

Everybody knows Toyota is one of the world's top companies for making cars. They use a unique way of making cars that helps them create good vehicles at low costs and come up with new ideas quickly. Not just car companies, but even hospitals and postal services have learned some tricks from how Toyota works.

But there is a catch! The story about Toyota is not complete. Their way of doing things is not just about being efficient in making cars. They think that only being efficient is not enough to be successful. Toyota does something different: they treat their workers as smart people who have a lot of knowledge. They focus on training and supporting them a lot. They ask everyone for ideas, not just the big bosses but everyone working there.

Toyota is known for making great cars that people trust. They are comfy, safe, and reliable, just what people expect from a Japanese brand like Toyota. Even today, they are competing with other car companies like Ford, Volkswagen, and Suzuki.

## Karwar- The Kashmir of Karnataka

In a beautiful area surrounded by green hills, The Arabian Sea, and the Kali River lies a quiet attraction—an exquisite beach named after Nobel laureate Rabindranath Tagore. He once worked here as the district collector and was so amazed by the beauty that he called it the 'Kashmir of Karnataka.'

Karwar is blessed with stunning beaches that boast different coloured sands. Tilmati Beach has black sand like sesame seeds, while others have soft white sands. It is considered one of India's cleanest cities and a top eco-tourism spot. Many folks here work in fishing and farming. The name 'Karwar' comes from a nearby village called Kadwad, which in Konkani means 'last area.'

### Top Places to Visit in Karwar:

**Sadashivgad Fort:** This historic fort was built in 1715 and has changed hands between Marathas, Portuguese, Dutch, and Britishers. It sits amidst lush forests where the Kali River meets the Arabian Sea, offering breathtaking views.

**Guddalli Peak Trek:** Standing at 1800 feet, this spot offers a mesmerizing view of the Arabian Sea and the town. It requires a 6 km trek through dense forests.

**Dev Bagh Beach:** Nestled between the Western Ghats and the Arabian Sea, this beach offers splendid views where the river Kali meets the sea.

**Kurumgad Island:** Shaped like a tortoise, this island is home to the famous Narasimha Temple and offers picturesque views.

**Warship Museum:** The decommissioned INS Chapel, now a museum, is located on Rabindranath Tagore Beach. You will find displays of missiles and mannequins dressed as sailors.

**Karwar Port:** With a natural 355-meter-long port, it can hold two ships at once. You can visit anytime except when goods are being loaded or unloaded.

Karwar hosts various attractions like Sadashivgad Fort, Ravindranath Tagore Beach, Dev Bagh Beach, Guddalli Peak, Kurumgad Island, Karwar Port, Majali Beach, Tilmati Beach, Kali River Garden, Rock Garden, Saalumarada Timmakka Tree Park, and the Warship Museum. One must-visit event is the Karavali Utsava, a cultural festival held at Rabindranath Tagore Beach. It includes mini shops, cultural performances, and appearances by artists from across the region and beyond.

# My Experience in NSS Camp

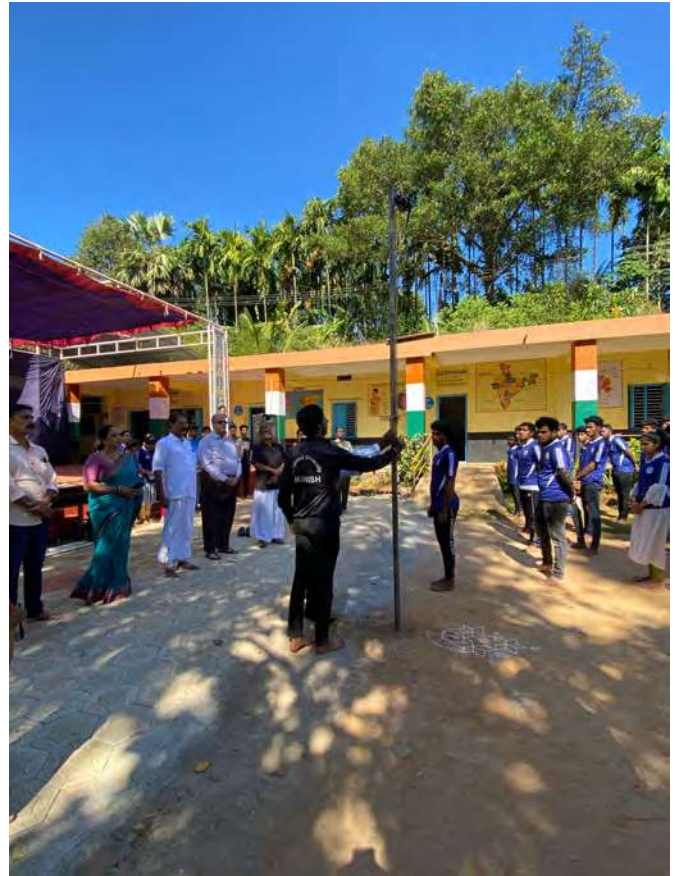

I want to share my experience from an NSS camp. We were supposed to be at college by 6:30 or 7:00 in the morning. I was excited as it was my first camp. I got ready on time and reached the college. We waited for our teacher and friends. Once everyone arrived, we headed to Abbettu village in Bantwal for a seven-day camp.

We reached around 8:30 and had breakfast. Then, we gathered for the NSS flag ceremony every morning at 6:30. We were divided into groups for different tasks. Since I did not know anyone, I felt a bit lonely. People mostly spoke Tulu, which I did not understand. It made me feel like an outsider, and that made me sad.

Despite feeling out of place, I stayed. There were various competitions and evening programs for the village. My experience was a mix of good and bad. I developed an allergy and had to leave the camp early. I stayed for four days only.

But during my time there, I learned a lot. I discovered new things, understood different perspectives, and learned to be on my own. It taught me to handle situations alone and be comfortable in my own company. Overall, going to a camp is an experience everyone should have.

## संचार माध्यम --- आज़ादी का दुरुपयोग

जैसे कि हम सब जानते हैं, जमाना पूरी तरह से बदल चुका है | पहले लोगों को बहुत सारी कठिनाइयों का सामना करना पड़ता था | लेकिन आज विज्ञान और तकनीक ने दुनिया की काया ही बदल डाली है | आज का दौर मीडिया का दौर हो गया है | मोबाईल और इंटरनेट के आविष्कार ने तो जैसे तहलका ही मचा दिया है | जहाँ इसके माध्यम से प्रगति की ओर बढ़ते हुए देश को हम उन्नति की तरफ ले जा सकते थे और हमारे राष्ट्रपिता महात्मा गांधी जी का सपना देश को विकसित करने का पूरा कर सकते थे, वहीं इसके दुरुपयोग से अपने और देश की उन्नति में बाधा पैदा कर रहे हैं | इसके दुरुपयोग से आज घर घर में छात्र पढ़ाई से होकर काम रूचि लेने लगे हैं | समय का भी दुरुपयोग हो रहा है | कभी नेट पर चैटिंग तो कभी वीडियो गेम्स में बहुत समय नष्ट और व्यर्थ हो रहा है |

समाज में भी मीडिया का बहुत दुरुपयोग हो रहा है | एक उदाहरण हमारे सामंज का चुनाव है इस चुनाव से हमें साफ साफ पता चलता है कि हमारे समाज के कुछ राजनेता हैं, वह देश को आगे बढ़ाने की कोशिश में जुटे हैं | कुछ मीडिया वाले रिश्तत लेकर, झूठी खबर बनाकर और इन राजनीतिक दलों की सच्चाई को छुपाकर समाज में हिंसा पैदा कर देते हैं | विज्ञापन और सोशल मीडिया को ही ले लीजिए, सोशल मीडिया बनाने के

पीछे मूल भावना यही थी कि सबको सुन्दर जीवन प्राप्त हो, हम और देश उन्नति की और अग्रसर हों, सबको सम्मान मिले, अशिक्षा न हो, न ही किसी का अपमान हो | लेकिन सोशल मीडिया ने सामाजिक विकास की बात तो दूर, सामाजिकता को ही तार-तार कर दिया है | कई लोग कारोबार के लिए कई बुरी चीजों को विज्ञापित करके युवाओं तथा छात्रों को पथभ्रष्ट कर दिया है |

समाज के लोगों की ऐसी मानसिकता हो गयी है कि मीडिया द्वारा प्रसारित हर प्रसारण को सही और श्रेष्ठ मान बैठते हैं | लोगों की इसी मानसिकता का लाभ मीडिया वाले उठा रहे हैं | बात कुछ हद तक सही दिखाई जाती है और बहुत कुछ उसमें ऐसा जोड़ दिया जाता है कि लोगों का भावनात्मक शोषण हो सके | सभी टी.वी चैनल अपनी टी. आर. पी बढ़ाने में ही लगे रहते हैं | बात यह है कि लोग इतने मतलबी हो गए हैं कि पैसों और झूठे गौरव के लिए कुछ भी करने को तैयार हैं | लोग मीडिया का लाभ उठाकर और मीडिया लोगों का लाभ उठाकर सिर्फ अपने जेबों को भर रहे हैं' न कि देश को आगे बढ़ा रहे हैं | लेकिन इस बात को समझोगा कौन ?

अभी इतनी भी देर नहीं हुई है | हम युवा, हम भारतीय अभी भी हमारे भविष्य को बदल सकते हैं | हमारे देश को और आगे ले जा सकते हैं | हर मीडिया में देश की तारीफ, प्रतिभाएं, विज्ञान तथा तकनीकी विकास के लेख छापकर देश को उन्नति की ओर बढ़ा सकते हैं | हमारे राष्ट्रपिता महात्मा गांधीजी का सपना भी पूरा कर सकते हैं | तो आईए, हम वादा करें कि हमें जो मीडिया की आज़ादी मिली है, उसका अभी और भविष्य में सही उपयोग करके देश को उन्नति के मार्ग पर अग्रसर करने के लिए प्रयत्नशील हो जाएँ |

" होगा जब समाज सच्चा, देश का विकास होगा अच्छा | "

### खजाने की खोज

एक गांव में रामलाल नाम का एक किसान अपनी पत्नी और चार लड़कों के साथ रहता था | रामलाल खेतों में मजदूरी कर परिवार का भरण पोषण करता था | लेकिन उसके चारों लड़के आलसी जो गांव में इधर उधर घूमते रहते थे | एक दिन रामलाल ने अपनी पत्नी से कहा कि " इस समय मैं खेतों में काम कर रहा हूँ | लेकिन मेरे बाद इन लड़कों का क्या होगा ? उन्होंने कभी कोई प्रयास ही नहीं किया , कभी खेत की तरफ नहीं गए | रामलाल की पत्नी ने कहा कि " धीरे - धीरे ये भी काम करने लगेंगे | " समय बीतता गया और रामलाल ले लड़कों ने कोई काम नहीं किया | एक बार रामलाल बहुत बीमार पड़ गए | वह कई दिनों तक बीमार रहे | उन्होंने पत्नी से चारों लड़कों को बुलाकर लाने को कहा | उसकी पत्नी चारों को बुलाकर ले आई | रामलाल ने कहा कि " लगता है अब मैं ज्यादा रहूंगा " | रामलाल को यह बात खाए जा रही थी कि उसके बाद बेटों का क्या होगा , इसलिए उसने कहा - " बेटों, मैंने अपने जीवन में जो कुछ भी कमाया है , वह खजाना मेरे खेतों के नीचे दबा हुआ है , मेरे बाद तुम उस खजाने को निकलकर आपस में बाँट लेना | " यह सुनकर चारों लड़के खुश हो गए |

कुछ समय के बाद रामलाल ली मौत हुई उसके कुछ ही दिनों के बाद उसके बेटे खेत में दबा खजाना निकालने गए | सुबह से शाम तक खेत में खुदाई की | लेकिन उन्हें कोई खजाना नजर नहीं आया | लड़कों ने घर आकर अपनी माँ से बताया कि " माँ पितजी हमसे झूठ बोले है | हमें उस खेत में कोई खजाना नहीं मिला | " उन्हें माँ ने बताया कि - " तुम्हारे पिता ने अपने सिर्फ यही खेत कमाया है | किन्तु अब तुम सबने मिलकर खेत को खोदा है " तो उसमें बीज भी बो "

लड़कों ने माँ के कहे अनुसार बीज बो दिए अनुरोध के अनुसार उसमें रहे \ कुछ समय बाद फसल पाक कर तैयार हो गयी ,

जिसे बेचकर लड़कों ने खूब अच्छा मुनाफा कमाया | जिसे लेकर माँ के पास पहुंचे | माँ ने कहा कि तुम्हारी मेहनत ही है , यही विचार तुम्हारे पिताजी तुम्हें समझाना चाहते थे | लड़कों को अपनी गलती का एहसास हुआ , वे सब मिलकर मेहनत कर गुजारा करने लगे |

## उमंग

पर्वत कहता शीश उठाकर  
तुम भी ऊंचे बन जाओ  
सागर कहता है लहराकर  
मन में गहराई लाओ ||

समझा रहे हो क्या कहती है  
उठ उठ गिर गिर तलल तरंग  
भर लो भर दिल में  
मीठी मीठी मृदुल उमंग ||

पृथ्वी कहती धैर्य न छोड़ो  
कितना ही हो सर पर भार  
नभ कहता है फैलो इतना  
ढक लो तुम सारा संसार ||

## कक्षा दसवीं

जब मैं कक्षा दसवीं में पहुँची  
पहला ख्याल था, है यह स्कूल का अंतिम वर्ष  
सोचा, होगा खूब मस्ती, होगी प्रभुद्ध शिक्षा का स्पर्श

पर मिला माता - पिता शिक्षकों का उपदेश खेलना बंद ||  
कहते हैं परिश्रम का फल मीठा होता है  
पर किसको पता पढ़ाई की कठिनाई और पीड़ा  
सर पर बोर्ड परीक्षा का बोझ  
जिम्मेदारी बढ़ती गयी पढ़ाई की रोज़ ||  
जब गणित देखा, तो हुआ उत्सुकता का एहसास  
और विज्ञान देखा तो ली रहत की साँस  
हिंदी और अंग्रेज़ी देख लगा अंक मिलने का चान्स  
पर भूगोल देखा तो लगा भाग जाऊँ मार्स ||  
नौवीं कक्षा तक रोज़ बचपना करते  
कुछ सयाने हुए दसवीं कक्षा तक आते  
लक्ष्य और आशाओं की उड़न ली ऊंची  
जब मैं कक्षा दसवीं में पहुँची ||

## शिक्षक

जीवन में जो रह दिखाए  
सही तरह चलना सिखाए  
माता पिता से पहले आता  
जीवन में सदा आदर पता ||

सबको मन प्रतिष्ठा जिससे  
सीखी कर्तव्यनिष्ठा जिससे  
रहा न कभी दूर मैं जिससे  
वह मेरा पथ रक्षक है जो  
मेरे मन को भाता  
वही मेरा शिक्षक कहलाता ||

कभी है शांत , कभी है धीर,  
स्वभाव में सदा है गंभीर ,  
मन में दबी रहे ये इच्छा  
काश मैं उन जैसा बन पाता  
मैं भी एक शिक्षक कहलाता ||

## नारी और मानवता

नारी नयन नीर जब आए  
मानव मूल्य जब छितराए  
मानवता को कलंक से बचाने को  
स्त्री को शक्ति दे जाने को ||  
स्वयं अवतरित हुए भगवान  
द्रौपदी का जब हुआ अपमान  
कहूँ क्या हम सब भूल चुके हैं ?  
क्या विरोध करने से हाथ रुके हुए हैं ?  
क्या फिर महाभारत की तैयारी है ?  
या एक और सृष्टि विनाश की बारी है ||  
गलियों में चौराहों में , आती जाती राहों में  
नौजवान चलते शब्दों के बाण  
धूमिल करते मानवता की पहचान  
जब अबला आहत हो जाए  
समाज से उचित मान न पाए  
तो कैसे बनेगा देश महान  
व्यर्थ ही होगा यह नव निर्माण ||  
वो है भुवन मोहिनी प्रतिमा  
सब सद्गुण की खान  
जग में नारी उत्तम  
पावन गंगा समान ||

## *Message From Alumni My Memories of Canara*

As an old student and teaching staff at Canara College, I am thrilled to share my thoughts about the institution. It all began in 1891 when Sri Ammembal Subbarao Pai and four teachers established Canara High School, marking a significant start in Mangalore's education scene. Later in 1972, Canara College was founded, eventually becoming a leading institution in South India. Thanks to generous contributions from donors and a high number of students from Dakshina Kannada District and Kerala State enrolling for graduation, along with the selfless dedication of teachers, the college flourished.

I started studying at this college in 1989 and finished in 1992, taking a B.A course. Back then, I noticed something special about the teachers—they knew their subjects well and shared that knowledge effectively with us. They also encouraged us to read more, which was important to them. The teachers emphasized qualities like leadership, urging us to become responsible citizens. The college consistently achieved high ranks since the beginning, thanks to the dedicated teachers, disciplined students, a great learning environment, good library resources, and various activities that helped us grow. Later, in 1995, I returned to this college as a teacher. The environment was friendly, and the teachers worked together, inspiring each other to pursue higher studies and projects. Over time, the college expanded its courses, and the management always supported us, especially during tough times like the pandemic when they ensured we received our full salaries. The college's motto, "Education for Righteous Life," has guided us in instilling good values, fostering strong education and culture, and becoming responsible citizens. I hope and pray that Canara College continues to prosper and celebrate many more successful years ahead.

### CA. M. VAMAN KAMATH

1976-79 Batch – B.Com.

I am extremely delighted that my college – Canara College is celebrating its Golden Jubilee this year. Started in 1973, the College has created a name for itself in the field of Collegiate Education. I joined the college in 1976 as a student of the 4th batch of B.Com. Those were the days when the college was not much known. However, for the students from Canara High Schools, it meant that they were moving into another home of their own. I remember the Orientation Programme conducted by our Principal Prof. G.K. Shenoy in our classroom. Though some of us friends sat in the first row on the Orientation Day, we took pride in being identified as the last benchers the next day onwards for all the three years of our graduate course.

With only one batch of B.Com. at that time, we had three lecturers – Prof. Shivanand Bhat, Prof. Satish Bhat and Prof. M.D. Kamath in the commerce department. The first two named here retired subsequently as the Principals of the College. I recollect the poetry lessons by our Principal Prof. G. K. Shenoy, which got me to delve into classic English Poetry. Prof. Nagaraj Rao Javali (Kannada), Prof. Dr. G.N. Bhat (Sanskrit), Prof. Vrinda Nayak (Hindi), and Prof. Narayan Bhat taught us the languages. I was a Sanskrit student but my closeness with all the lecturers continues even to date. Economics was taught to us by Prof. Jagdish Shettigar and Prof. Ramesh Kedilaya. Advocate K.P. Vasudeva Rao taught us Mercantile Law and he takes as much pride as us in saying that in his subject, we got a 100% result. Prof. G. Ganesh Prabhu taught us Commercial Mathematics for some time. I enjoyed all his classes thoroughly. With many of the lecturers being very young, handsome and just out of their post graduate studies, I remember that many girls had a crush on the unmarried ones.

My interaction continues till date with Prof. M.R. Prabhu, Prof. Dr. P.A. Bhat, Prof. K.V. Bhakta, Prof. B.S. Moodithaya, Prof. Ravindra, Prof. M.B. Puranik and Prof. Suvarnalatha Kini all from the Science Faculty who patted me on the back in various committees in the college whenever a programme was organized. Sri K.S. Damodar, the Physical Education Director was my neighbour as well. I remember late Prof. B.V. Upadhyaya who molded the shape of the college and a lot of students.

The teaching excellence of our teachers is reflected in the ranks which the college got.

We were a batch of 84 students – 60 boys and 24 girls. I recollect each and every one of them, even though with some there has not been any interaction since we moved out of the college. With a heavy heart I should say that we have lost 16 of our batchmates.

Those were probably the happiest days of my educational career. The participation in College Student Council Elections, taking a small lead as the Secretary of Commerce Association, being an NCC cadet, attending NSS camps, the inter-collegiate

competitions at various places – Puttur, Karkala, Kundapur, Udupi, Moodbidri – all these memories are still vivid. The reunion of our batch which we could organise in 2018 saw 50 of the 70 living batchmates at that time. I am extremely delighted to say that we keep meeting every month. Our trip to Thiruvananthapuram and Kanyakumari taught me the ways to organise. The Temples at Thiruvananthapuram and Kanyakumari, the long train travel, the fun at the beaches and Vivekananda Rock Memorial are still imprinted on my mind.

My days in college were those when I discovered myself more. What I could do, what I should do and what I should not do, which were appropriate at the moment were realised by me. Though I realise at present that each person is unique and independent, there was a tendency at that time to fit into the mould created by some other people – parents, teachers and friends. My only stage performance in the college – a Sanskrit skit from Kalidasa's "Meghadootam" was in 1978 which was also broadcast subsequently by All India Radio, Mangalore. The College Wall Magazine "Mangala" edited by Prof. Javali saw me writing stories and poems in my pen name.

The movies that I saw, particularly the old ones along with some of my friends whom I pestered to sit with me, the Sunday evenings at the Town Hall Garden with friends, roaming the Car Street during the Car Festival, NCC Camp at Bhadravati – all these I sit and reminisce now and then.

The College Day festivities were big in those days with the new college functioning with a small budget. My time on the entertainment committee, the invitation committee, the Prize Committee on which I was working are cherished by me. These interactions got me to know not only my contemporaries in other disciplines but also my seniors and juniors in the college. The days were the selected ones for most of the students to present themselves in the best attire. As the academic year came to an end, when the farewell function was organised, there were a few who shed tears. Autographs were exchanged, promises made never to forget each other in the days to come... those were the days without social media and smartphones. Because I was involved in a lot of extra-curricular activities, I remember the grueling days before the examinations. I am happy that I am a link to the unbroken chain of ranks which the college secured for a long time since inception.

Canara College is the one which identified my strength, to realise who I am and what I want to be, to bridge the gap between where I stand and where I would like to be. In any person's life there are things, events and people that are good and some not so good. All these come from our expectations. It is for us to take only the good and cherish the memories for our own happiness. Most of what I am and what I have accomplished, I owe it to my college.

I thank the Principal and other organisers for giving me this opportunity to pen my recollection of the college days.

### ಇಲ್ಲ ಮನಕೆ ಅಳುಕು ಇರದು

ಅದು 1976 ರ ವರ್ಷ ನಾನು ಆಗ ಕಾರ್ಕಳದ ಭುವನೇಂದ್ರ ಕಾಲೇಜಿನಲ್ಲಿ ವಿಜ್ಞಾನ ಪಿಯುಸಿ ಪೂರ್ಣಗೊಳಿಸಿದೆ. ಅದೇ ವೇಳೆ ನನ್ನ ಅಕ್ಕನಿಗೆ ಮಂಗಳೂರಿನಲ್ಲಿ ಸರಕಾರಿ ಉದ್ಯೋಗ ದೊರೆಯಿತು. ಆದ್ದರಿಂದ ಅವರ ಜತೆಗಿರಲು ನನ್ನನ್ನು ಪದವಿ ಅಧ್ಯಯನಕ್ಕೆ ಮಂಗಳೂರಿನ ಕೆನರಾ ಕಾಲೇಜಿಗೆ ಸೇರಿಸುವುದೆಂದು ನನ್ನ ಕರ್ವಾಲಿನ ಕುಟುಂಬ ಸರ್ವಾನುಮತಿಯಿಂದ ನಿರ್ಣಯಿಸಿತು. ಹೀಗೆ ಮಂಗಳೂರಿಗೆ ನನ್ನ ಪುರಪ್ರವೇಶವಾಯಿತು. ಕೆನರಾ ಕಾಲೇಜಿಗೆ ನಾನು ಬಂದಾಗ ಪ್ರೊ. ಜಿ. ಕೆ. ಶೆಣೈ ಅವರು ಪ್ರಾಂಶುಪಾಲರು. ಅವರ ಚೇಂಬರಿಗೆ ಅಕ್ಕ ಅಣ್ಣನ ಜತೆಗೆ ನಾನು ಬಂದಾಗ ಅವರ ಆಕರ್ಷಕ ವ್ಯಕ್ತಿತ್ವ ಗಮನ ಸೆಳೆಯಿತು. ಸದಾ ಟೈಧಾರಿಗಳಾಗಿ ಮಿಂಚುವ ಮಾನವೀಯ ಮೌಲ್ಯಗಳ ಸಾಕಾರ ಅವರು. ನನ್ನನ್ನು ಬಿಎಸ್ಸಿ(ಪಿಸಿಎಂ) ಪದವಿಗೆ ಸೇರಿಸುವುದೆಂದು ಅವರಲ್ಲಿ ಹೇಳಿದಾಗ ನನ್ನ ಪಿಯುಸಿ ಅಂಕಪಟ್ಟಿ ನೋಡಿದರು. ನನ್ನ ಮುಖ ನೋಡಿದರು. ಬಹಳ ಕಡಿಮೆ ಇದೆ ಅಂಕ. ವಿಜ್ಞಾನ ಪದವಿ ಓದಲು ಸಾಧ್ಯವೇ ಎಂದು ಕೇಳಿದರು. ಆ ವೇಳೆಗೆ ನನ್ನ ಭಾಷಣ ಲೇಖನ ಪರಾಕ್ರಮವನ್ನು ಬಣ್ಣಿಸಲಾಯಿತು. ಸ್ವತಃ ವಾಗ್ಮಿ ಕೃತಿಗಳ ಲೇಖಕರಾಗಿದ್ದ ಅವರು ಆಗಬಹುದು ಎಂದು ಸೇರ್ಪಡೆಗೊಳಿಸಿದರು.

ಹೀಗೆ ಕೆನರಾ ಕಾಲೇಜು ನನ್ನ ಬದುಕಿನ ಮುಂದಿನ ಹಾದಿಯಾಯಿತು. ಇಲ್ಲಿ ನನ್ನನ್ನು ರೂಪಿಸಿದ ಎಲ್ಲಾ ಉಪನ್ಯಾಸಕರು, ಸಹಪಾಠಿಗಳು, ಶಿಕ್ಷಕೇತರ ಸಿಬಂದಿ, ಗ್ರಂಥಪಾಲಕರೆಲ್ಲರ ಹೆಸರು ಉಲ್ಲೇಖಿಸಲು ಅಸಾಧ್ಯವಾದ್ದರಿಂದ ಶೆಣೈ ಸರ್ ಅವರ ಬಗ್ಗೆ ಮಾತ್ರ ಪ್ರಾತಿನಿಧಿಕವಾಗಿ ಉಲ್ಲೇಖಿಸಿದೆ. ಮುಂದೆ ಮೂರು ವರ್ಷಗಳಲ್ಲಿ ನಾನು ಶೈಕ್ಷಣಿಕವಾಗಿ ವಸ್ತುಶಃ ಯಾವುದೇ ಸಾಧನೆಯನ್ನು ಮಾಡಲಿಲ್ಲ. ಆದರೆ ಜಿಲ್ಲಾ ರಾಜ್ಯಮಟ್ಟದ ಅಂತರ್ ಕಾಲೇಜು ಭಾಷಣ, ಲೇಖನಗಳಲ್ಲಿ ಆ ಕಾಲಕ್ಕೆ ಸುಮಾರು 75 ಪ್ರಥಮ ಮತ್ತು ಸುಮಾರು 30 ಇತರ ಬಹುಮಾನ ಪಡೆದೆ. ಕಾಲೇಜಿನ ಕ್ರಿಕೆಟ್, ಬಾಲ್ ಬ್ಯಾಡ್ಮಿಂಟನ್ ತಂಡದಲ್ಲಿ ವಿವಿ ಮಟ್ಟದ ಸ್ಪರ್ಧೆಯಲ್ಲೂ ಭಾಗವಹಿಸುವ ಅವಕಾಶ ಲಭ್ಯವಾಯಿತು. ಕಾಲೇಜಿನ ವಾರ್ಷಿಕೋತ್ಸವದಲ್ಲಿ ಮೊದಲ ವರ್ಷ ನಾಟಕದ ಸಹ ನಿರ್ದೇಶಕನಾಗಿ ಮತ್ತೆರಡು ವರ್ಷ ಪ್ರಧಾನ ಪಾತ್ರಧಾರಿಯಾಗಿಯೂ ಅವಕಾಶ ದೊರೆಯಿತು.

ಹೀಗೆ ನನ್ನನ್ನು ಸರ್ವತೋಮುಖವಾಗಿ ರೂಪಿಸಿದ್ದು ಕೆನರಾ ಕಾಲೇಜು. ಇಲ್ಲಿ ಸಾಹಿತ್ಯ ಸಂಘದ ಕಾರ್ಯದರ್ಶಿಯಾಗಿ ನಾನು ಡಾ|| ಶಿವರಾಮ ಕಾರಂತ ಅವರಂತಹ ಧೀಮಂತರ ಒಡನಾಟ ಪಡೆದೆ. ಕಾಲೇಜಿಗೆ ಆಹ್ವಾನಿಸಿದೆ. ಹಸ್ತ ಪತ್ರಿಕೆಗಳನ್ನೂ ತಯಾರಿಸಿದೆ. ವಾಲ್ ಮ್ಯಾಗ್‌ಜಿನ್‌ಗಳಲ್ಲಿ ನಿರಂತರ ಬರೆದೆ. ಆ ಸಂದರ್ಭದಲ್ಲೇ ಉದಯವಾಣಿಯಲ್ಲಿ ನನ್ನ ಸಣ್ಣ ಕತೆ, ನವಭಾರತ ಮತ್ತಿತರ ಪತ್ರಿಕೆಗಳಲ್ಲಿ ಲೇಖನಗಳ ಪ್ರಕಟವಾಯಿತು. ಮುಂದೆ ಬರಹವೇ ನನ್ನ ಬದುಕಾಯಿತು. ಇದನ್ನು ರೂಪಿಸಿದ್ದೇ ಕೆನರಾ ಕಾಲೇಜು. ಆ ಮೂರು ವರ್ಷಗಳಲ್ಲಿ ಶೆಣೈ ಸರ್ ಅವರು ನನ್ನನ್ನು ಕಾಲೇಜಿನ ಅಧಿಕೃತ ವರದಿಗಾರನನ್ನಾಗಿ ಘೋಷಿಸಿದರು. ಕಾಲೇಜಿನ ಎಲ್ಲಾ ಸಂಘಗಳ ಸಭೆಗಳ ವರದಿ ಬರೆದು ಪತ್ರಿಕೆಗಳಿಗೆ ತಲುಪಿಸುವುದು ನನ್ನ ಕೆಲಸವಾಯಿತು. ಅದೇ ವೇಳೆ ನಾಡಿನ ಖ್ಯಾತ ಪತ್ರಕರ್ತರ ಸಾಂಗತ್ಯವೂ ಬೆಳೆಯಿತು.

ಕೆನರಾ ಕಾಲೇಜಿನ ಇನ್ನೊಂದು ವಿಶೇಷವೆಂದರೆ ಇಲ್ಲಿನ ಉಪನ್ಯಾಸಕರೆಲ್ಲ ತರಗತಿಯ ಹೊರಗೆ ನಿಜಾರ್ಥದ ಗೆಳೆಯರು. ಎಲ್ಲಾ ವಿದ್ಯಾರ್ಥಿಗಳ ಜತೆಗೆ ಸ್ನೇಹಮಯವಾದ ನಡವಳಿಕೆಯಿಂದ ಅವರು ಪ್ರೀತಿ ತುಂಬಿದವರು. ಹೀಗೆ ಕೆನರಾ ಕಾಲೇಜಿನ ಸ್ಥಾಪನೆಯ ಬೆಳ್ಳಿಹಬ್ಬ, ಚಿನ್ನದ ಹಬ್ಬಗಳಲ್ಲೆಲ್ಲ ನನಗೆ ಸಮ್ಮಾನ, ನಿರೂಪಣೆ, ಅತಿಥಿ ಸ್ಥಾನದ ಗೌರವ ನೀಡಲಾಗುತ್ತಿದೆ. ಪತ್ರಕರ್ತನಾಗಿ ಇಲ್ಲಿ ಸುಮಾರು 100ಕ್ಕೂ ಹೆಚ್ಚು ಕಾರ್ಯಕ್ರಮಗಳಲ್ಲಿ ಅತಿಥಿ, ಸಂಪನ್ಮೂಲ ವ್ಯಕ್ತಿಯಾಗಿ ಭಾಗವಹಿಸಿದ್ದೇನೆ. ಈಗಲೂ ಇಂತಹ ಅವಕಾಶಗಳು ನನಗೆ ದೊರೆಯುತ್ತಿವೆ. ನನ್ನಂತಹ ನೂರಾರು ಮಂದಿಗೆ ಇಂತಹ ಅವಕಾಶ ಕಲ್ಪಿಸಿಕೊಟ್ಟಿದ್ದು ನಮ್ಮೆಲ್ಲರ ಹೆಮ್ಮೆಯ ಕೆನರಾ ಕಾಲೇಜು. ನನ್ನ ಬದುಕನ್ನು ಕಟ್ಟಿಕೊಟ್ಟಿದ್ದು ಕೂಡಾ ಕೆನರಾ ಕಾಲೇಜು.

### *Reflections on 50th year.....*

Congratulations on completing the remarkable journey of 50 years! The momentous occasion of this golden anniversary fills me with immense pride and nostalgia to reflect on my time as a student leader (Vice-President – Year 1978-79) within these blessed walls. Our college has been a beacon of knowledge, growth and transformation and it is an honour to contribute to this special occasion by sharing my experiences & thoughts.

Those were the days without much of technological advances! We had committed and dedicated teaching staff; we thoroughly enjoyed the teacher-student bondage. The outstanding faculty inspired and challenged us, the rigorous academic programme that expanded our knowledge and curiosity.

Being a student leader is not just about holding a position, it is about embodying the values and principles that our college instils. It was here, I learned the importance of integrity, teamwork, empathy and the power of collective action. Our college provided a nurturing environment that empowered us to lead and make a positive impact on our community.

As a student leader and a proud alumnus of this institution, I have been fortunate enough to witness the transformative power of education and the lasting impact it has on our lives. Beyond the confines of academic pursuits, our college provided countless opportunities for self-discovery and personal development. Whether it was joining a sports team, participating in theatre arts, engaging in debate competitions – they offered myriad opportunities for us to explore our interests and develop new skills.

As student leaders, we were entrusted with the responsibility of advocating for the needs and aspirations of our fellow students. We worked closely with the college administration representing student voices and striving to enhance the college experience. We learnt the importance of social responsibility and worked actively towards positive change. On this special occasion, I extend my heartfelt gratitude to our alma-mater for shaping us into leaders we are today!

Canara College for me is a place where lifelong friendships are formed, where mentors guide us and we find support in times of need. Together we celebrated successes overcame challenges and created lasting memories. As we celebrate this significant 50th milestone, let us remember that our college experience is more than just a flash of memory!

It is indeed good to see that our college has undergone significant changes over the past 50 years, evolving to meet the needs of a rapidly changing world.

Change is the law of nature! There are many new faces in the team now and I often miss the old but I guess this is life and one must accept the movement of time. But in my life, 'Canara' will always occupy a place of regard and respect!

I convey my best wishes to the faculty & students for the coming years and appreciate their efforts towards providing holistic education to their students on the occasion of its Golden jubilee celebrations!

I also hope that the collective efforts of all associated with the college would enable it to scale greater heights in the future.

On this auspicious and historic occasion, I wish the institution all glory and prosperity in the years to come.

As we celebrate this 50th year, let us reflect on the impact it has had on our lives, It is a testament to the vision of dedication of countless individuals who have contributed to its growth and success. Let us carry the torch of the legacy forward! Let us remain committed to the values our college instilled in us and continue to make a positive difference in the world.

Wishing Happy Golden Anniversary to beloved college and may the next 50 years be filled with continued excellence, innovation and growth! Here's to the next 50 years of excellence.

Thank you for giving me the opportunity to share my thoughts & cherished memories!

May our alma-mater continue to flourish, empowering future generations of students to embrace the opportunities that lie ahead!

Hello everyone!

I'm S. Mukund Kamath, and I studied B.Sc. (CBZ) at Canara College from 1992 to 1995.

Canara education has been a big part of my family for four generations. My grandfather, father, myself, and now my kids, S. Manya Kamath and S. Mohith Kamath, all studied here. Even my partner, Divya, graduated with top honors. We are a Canara family through and through!

Remembering my time at Canara always makes me happy. Those three years meant a lot to me. Writing about all the fun would take forever, so I will keep it short!

College is where you make lifelong friends. We started as strangers but became close. Those friendships shaped who I am today.

I used to be shy, but college changed that. The things I did outside of class made me grow a lot.

Our teachers at Canara were amazing. They have been here since the start and taught us so much. They were strict but also very supportive.

Our class had way more girls than boys—just five boys out of 30 students. I became the class rep unexpectedly, which taught me a lot about leadership.

We shared a lot of food during breaks. Some classmates brought good snacks!

We even organized study tours for two years in a row, something unique for our college!

Before college, I was not into sports, but I got really involved at Canara. I played badminton, did shot put, and won a few medals.

I discovered my love for singing during those years and it's stuck with me since.

Some teachers thought I wasn't focusing on studies because of my other activities. But I proved them wrong by graduating with top marks!

Whenever I visit my old college, it feels like going back in time. Walking down those halls brings back so many good memories.

Even though we all went our separate ways after college, we still meet up. Every time we do, we laugh and remember the good old days.

Here's to those amazing college days that we'll always treasure!

The significance of the word 'Canara' holds a deeply emotional place in my heart. It is deeply connected to my journey and has been instrumental in shaping my present identity. Stepping into this institution in 1999 to pursue my B. Com degree and graduating in 2002 marked a crucial chapter in my life. Being elected as the Students Union Council Secretary in 2001 remains a cherished memory from my college days, filled with invaluable experiences.

Principal B. V. Upadhyaya and Prof Nagaraj Rao Javali left a lasting impression on me with their remarkable qualities. Their guidance and encouragement not only influenced my college years but continued to inspire me in my later endeavors. Joining the Alumni Association in 2002 was a natural step for me, driven by a desire to give back to the institution that had given me so much.

As an alumnus, I hold immense gratitude for everything Canara provided me during my formative years. The lessons learned within these walls have significantly shaped both my personal and professional growth. My commitment to the association stems from a deep-seated desire to serve our alma mater to the best of my abilities.

Reflecting on the past two decades, I have witnessed the evolution of our college. From a beautiful campus to a robust management and a dedicated team of Principal, faculty, and staff, the commitment to providing top-notch education to every student remains unwavering.

Here is to the enduring spirit of Canara—may it continue to thrive and evolve. Thank you, Canara, for molding me into a proud alumnus.

## *'Educating for righteous life'*

'Educating for righteous life'- As Canara College's motto, the time I spent here pursuing my B.Sc. (CBZ) from 2000 to 2003 remains a cherished chapter that truly shaped my life. It served as the bedrock for both my academic and professional endeavors. Since its inception in 1973, the college has been instrumental in sculpting the paths of numerous students, many of whom now thrive in diverse fields.

On the cusp of the Golden Jubilee celebrations, I extend my heartfelt wishes for the college to persist in its illustrious journey, continuing to nurture intellectually and culturally enriched students in line with its noble vision. I am immensely grateful for the opportunity to express my profound gratitude to my alma mater."

With warm regards,

## Message From Alumni

Canara College touched my life in so many ways that the most important people in my life are in some way connected with the college or have studied in one of the institutes managed by CHS Association. I found life at Canara.

My tryst with Canara started with the me joining for the B.Com course in 1999. This was a classic case of being third time lucky. Had tried to join a Canara institute a couple of times earlier, but fate had other plans. I was more of a subdued student, never taking part in anything beyond academics as I had a flair for accountancy & taxation and wanted to enroll in the CA course after college.

I am pretty sure that most of my classmates as well as lecturers wouldn't have known a lot about me as I hardly made my presence felt. It was in the final year, after the first test that MD sir (Sri Damodar Kamath) who noticed my flair for accounts, forced me to join the Finance Event team that participated in ACME 2001, the inter-collegiate fest at St Aloysius College. The event got scrapped, but I ended up helping the Marketing Team & eventually joined them. It was here that we won the Marketing Event & the Overall Championship. That one opportunity changed the course of my student life. I was always part of the music, drama, debate & magazine team in my high school and PU days, but this win made me understand my potential and do more than just academics. It also steered me unknowingly towards advertising. The sheer confidence it gave me in my abilities helped me later in my CA days (though I left the course mid-way) & my MBA days where I went on to bag the 'Best MBA Student Award 2006-07' given for all-round performance in both academics & extra-curricular activities.

During the recently held 50 years celebration of our college, an alum asked me when did you pass out? I cheekily answered, I have passed, but have never been out from college. This is because, ever since I graduated in 2002, I have been part of the Alumni Committee either as a member or its Governing Council, being the President from the past 5 terms or so. It is here that my bond with Canara family strengthened. As part of the Alumni committee group, I got a bird's eye view on all college activities over the years, the honourable goals of the

management, the pains taken by the staff, the exuberance of our students, have made me ever grateful that I could be a part of this glorious institution. I am ever grateful to Sri Nagaraj Rao Javali, Sri Shivanand Bhat, Sri Sathish Bhat, & Sri Damodar (PD sir) who with their humble nature & great character have made an indelible mark on numerous students. But my interaction with them was mostly after I became part of the Alumni & the vision that they had for the students was second to none. It was my privilege to be their student & work with them as part of the Alumni. I also have to thank the numerous colleagues in the Alumni network, who have the best interests of the college always & are ready to work towards achieving the same.

Over a period of time, I have met many Canarites in different parts of India, whether from the college or other institutions under the aegis of Canara, and every time the discussion has been about the fond memories & the platform it provided us to succeed in life. This bond of being a Canarite should never be broken and hence, I appeal to the Alumni, to support the college in any manner that they can so that the college can still continue shaping the lives of the students and helping them like it did to us.
