### Policy Document for Grievance Redressal

#### Preface

**"Dealing with grievances can be difficult; but not dealing with them can be worse!"**

A contented service experience is the key to acquire and nurture enduring relationship with the stakeholders. As we deal with human beings, difference of opinion and friction may arise out of interactions and the dissatisfaction may be expressed as complaints. A complaint is an opportunity for anyone not only to do the service upsurge and win their trust back but also to improve the product, process, technology and people aspects at the Institution. Grievances therefore are a great source of the voice of the stakeholders.

Although the Institute is committed to providing a safe, fair, equitable and harmonious learning and working environment, yet the instances of grievances are inevitable. Hence, it is good to air a grievance rather to keep it bottled up. Protection of human rights is essential for all round development of an individual's personality. To realize the primary needs of the students, staff and other stakeholders and secure civil liberties for everybody, a Grievance Redressal Policy is a potent document.

Considering this fact, the Grievance Redressal is a vital machinery to sort out the issues between aggrieved and college. It is a device of settling the issues encountered by expressing feelings through pursuing and initiating the grievance procedure in accordance with the rules and regulations of the Institute. Through this policy, we hope and continue to work on principles including confidentiality, impartiality and sensitivity; thereby assuring timely and appropriate action.
